PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Reviewed and assessed data accuracy against client policies and compliance requirements, supporting **regulatory adherence** and platform data integrity across **25,000+** records monthly in enterprise production environments.
- Engaged with business stakeholders via **outbound phone calls and written communication** to verify information, update client platforms, and resolve discrepancies—managing **200+ customer interactions monthly with 98% first-contact resolution**.
- Performed data validation and quality assurance using **SQL** (PostgreSQL, MySQL, Oracle) to identify inconsistencies in customer records and enforce adherence to client policies across interconnected business systems.
- Collaborated with cross-functional teams including business analysts, operations, and compliance teams to triage data issues, escalate P1/P2 concerns, and implement corrective actions in **fast-paced, dynamic environments**.
- Demonstrated adaptability and flexibility by managing **repetitive, detail-intensive tasks** while maintaining focus and accuracy—supporting multiple client projects simultaneously with **attention to detail and problem-solving acumen**.
- Applied excellent verbal and written communication skills across **customer engagement** workflows, creating clear documentation, incident summaries, and audit trails compliant with **data protection and regulatory requirements**.

SKILLS

Data Review & Quality Assurance – data accuracy assessment, compliance validation, policy enforcement, data integrity verification, audit trail management.

Customer Engagement – outbound communications, verbal and written communication, stakeholder collaboration, customer relationship management, business interaction.

Data Management & SQL – PostgreSQL, MySQL, Oracle, ad-hoc queries, data validation, schema changes, customer record management.

Compliance & Regulatory – GDPR, data protection requirements, compliance adherence, audit requirements, regulatory frameworks, change-control management.

Enterprise Systems & ERP Support – enterprise business systems, ERP platform support, system integrations, business-system user assistance, UAT coordination.

Tools & Platforms – Jira, Confluence, enterprise customer platforms, reporting and ticketing systems.

Languages – English (fluent), French (fluent).

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin

02/2026

PROJECTS

SWIFT Payments Operations & Data Compliance Dashboard (HCL Technologies)

- Reviewed and validated **SWIFT message data** (MT/MX formats) against **ISO 20022** and client-specific compliance policies, ensuring **100% regulatory adherence** for cross-border and SEPA payment transactions.
- Engaged with banking-domain business stakeholders via outbound calls to verify payment transaction details, resolve discrepancies, and update the payments-operations platform—supporting **5,000+ daily transactions** with **zero compliance incidents**.
- Performed ad-hoc **SQL queries** across PostgreSQL and Oracle databases to validate customer payment records, trace ISO 20022 message flows, and enforce GDPR and data-protection requirements in regulated banking environments.
- Collaborated with banking operations teams, business analysts, and compliance officers to triage payment-flow anomalies, escalate regulatory concerns, and implement corrective actions in **SLA-critical production settings**.

Enterprise Data Moderation & Business System Integration Support (HCL Technologies)

- Assessed accuracy of customer and enterprise business data against ERP and interconnected system policies, performing **detail-intensive data quality reviews** across **15,000+ monthly records** with **99.2% accuracy**.
- Engaged with business users and internal teams via **outbound communications and written updates** to verify enterprise system information, update customer platforms, and resolve cross-system data discrepancies in fast-paced, dynamic environments.
- Applied **SQL data validation** and **problem-solving** to identify and remediate data inconsistencies across PostgreSQL, MySQL, and Oracle backends supporting ERP change-control and UAT workflows.
- Demonstrated exceptional adaptability and flexibility by managing repetitive, accuracy-critical data moderation tasks while collaborating with multiple cross-functional teams and maintaining focus on regulatory compliance and audit-trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
