PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed, developed and maintained **PL/SQL procedures, packages and database objects** supporting enterprise Finance and HR workflows; optimized query performance across **PostgreSQL, MySQL, Oracle** environments, reducing report generation time by **40%**.
- Built and maintained **Oracle BI Publisher reports, extracts and data utilities** for production Finance and HR systems; developed **XML Publisher** templates for automated statement generation and regulatory compliance reporting across **1,500+** monthly transactions.
- Translated business and functional requirements into structured technical specifications; collaborated with Business Analysts and stakeholders to design **PL/SQL solutions** and **Oracle Forms enhancements** for Finance module change requests, achieving **100%** first-pass UAT acceptance.
- Supported live production Oracle EBS environments with hands-on incident investigation and resolution; managed **P1/P2 technical issues** across Finance and HR modules, maintaining **99.2% system uptime** and **SLA compliance** in a mission-critical enterprise estate.
- Participated in upgrade and enhancement initiatives including **R12 activities** and **payroll-related changes**; contributed to testing, defect resolution and performance optimisation, delivering **15+** production releases with zero critical post-go-live defects.
- Managed technical integrations between Oracle EBS and internal systems via **REST APIs and database-level data flows**; liaised with Oracle Support on **SRs** and change-control procedures; supported controlled releases and out-of-hours production activities.

SKILLS

Oracle EBS & Development – Oracle E-Business Suite, PL/SQL procedures and packages, Oracle Forms, Oracle BI Publisher, XML Publisher, Oracle APEX, JDeveloper.

Databases & Data – Oracle, PostgreSQL, MySQL, SQL query optimization, schema design, data utilities, ETL pipelines, data warehousing.

Finance & HR Modules – Oracle EBS Finance, Oracle EBS HR, payroll processes, R12 upgrade support, Financial reporting, HR integrations.

Production Support & Change – Production system support, incident management, SLA management, change-control, defect resolution, performance optimization, UAT coordination.

Integration & Reporting – REST API integrations, cross-system data flows, BI Publisher reporting, automated extract utilities, regulatory compliance reporting.

Enterprise Technologies – Git, Jenkins, Jira, Confluence, Linux, shell scripting, GDPR and data protection compliance.

Analytics & Visualization – Power BI, Tableau, DAX, Power Query, data modelling, dashboard development, business intelligence.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Oracle EBS Finance & HR Production Support Suite (HCL Technologies)

- Engineered end-to-end **PL/SQL packages** and **Oracle BI Publisher reports** for automated Finance reconciliation and HR payroll processing; reduced manual data entry effort by **60%** and improved month-end close cycle by **3 days**.
- Developed **Oracle Forms enhancements** and custom validation logic for GL posting and employee master data maintenance; implemented **XML Publisher templates** for statutory payroll statements and financial reports compliant with corporate governance requirements.
- Coordinated **R12 upgrade activities** including technical specification writing, custom code migration, and UAT support; resolved **45+** functional and technical defects post-implementation; maintained production stability across **Finance and HR modules** during transition.

Cross-System Integration & Enterprise Data Pipeline (HCL Technologies)

- Architected and implemented **REST API integrations** between Oracle EBS and internal business systems; designed **database-level data flows** using **PL/SQL ETL** utilities to synchronize GL accounts, employee records, and transactional data across **PostgreSQL, MySQL, Oracle**.
- Built automated **BI Publisher data extraction and reporting layer** feeding operational dashboards; developed **Power BI and Tableau visualizations** for Finance leadership to monitor GL reconciliation status and HR metrics in real-time, enabling **same-day decision-making**.
- Managed technical liaison with Oracle Support on **SRs and change requests**; documented integration specifications and technical design artifacts in **Confluence**; supported controlled releases and production cutovers with **zero critical incidents**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
