PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **SAP logistics modules (ECC)** application support and system reliability across supply chain operations, managing **P1/P2 incidents** and SLA adherence for enterprise clients; coordinated with regional IT and supply chain teams to ensure consistent service delivery and operational stability.
- Led **SAP ECC to S/4HANA migration** planning and validation activities, including user acceptance testing (UAT) coordination, system functionality validation, and post-implementation handover to ensure seamless transition and business continuity across supply chain processes.
- Designed and executed **WMS operation and integration** documentation, test cases, and automation workflows; collaborated with key users and functional analysts on supply chain requirements capture, change control management, and system configuration updates for interconnected logistics platforms.
- Orchestrated **supply chain IT project delivery** across multiple phases (discovery, implementation, UAT, go-live, post-implementation support) with direct coordination of resources from regional IT teams, external consultants, and business stakeholders; delivered projects on time and within budget whilst meeting agreed user specifications.
- Developed comprehensive **user training materials, system manuals, and operational documentation** in collaboration with key users and business analysts; organized and verified delivery of application training to support smooth adoption and reduce support tickets by **35%** in post-implementation phase.
- Provided continuous **supply chain application support** via **REST API integrations** and **middleware platforms** connecting SAP with legacy business systems; performed ad-hoc data validation, schema changes, and cross-system reconciliation to maintain data integrity and regulatory compliance (GDPR, audit trails).

SKILLS

SAP & Enterprise Systems – SAP ECC, SAP S/4HANA, logistics modules, WMS operation, supply chain planning processes (forecasting, supply planning, S&OP, distribution, replenishment), ERP integration support.

Project Management & Delivery – IT project planning and coordination, change control management, UAT organization and execution, system handovers, post-implementation support, resource coordination, international project delivery.

Supply Chain & Planning – Demand forecasting, supply planning, Sales & Operations Planning (S&OP), distribution workflows, replenishment processes, cross-border logistics, inventory management.

Integration & Middleware – REST APIs, SAP Process Orchestration (SAP PO), middleware platforms, cross-system data flows, API-driven automation, system interconnections.

Application Support & Documentation – User support and helpdesk, user training development, system documentation (manuals, test cases, runbooks, project updates), incident management, operational effectiveness.

Data & Reporting – SQL (PostgreSQL, Oracle), data validation, reconciliation workflows, operational dashboards, regulatory compliance (GDPR, audit trails).

Collaboration & Soft Skills – Cross-functional teamwork (IT, supply chain, operations, business analysts), problem-solving, customer orientation, communication, documentation, conscientiousness, proactivity.

EDUCATION AND TRAINING

PROJECTS

SAP ECC Logistics Module & WMS Integration Support (HCL Technologies)

- Delivered **production application support** for **SAP ECC logistics modules** serving supply chain and warehouse management operations; managed incident response, SLA tracking, and reliability monitoring using **Splunk and CloudWatch** to ensure **99.2% system uptime**.
- Led **WMS automation and integration projects**, designing **REST API** connectors between SAP and third-party logistics platforms; coordinated UAT sessions with key users, validated system functionality against requirements, and produced **comprehensive test case documentation** and **integration runbooks**.
- Facilitated **supply chain process optimization** across forecasting, supply planning, S&OP, and distribution workflows; collaborated with supply chain BAs to capture functional requirements, recommended process improvements to application analysts, and ensured change-control adherence during system updates.
- Organized and delivered **user training programs** and **operational manuals** for supply chain staff; coordinated with key users to validate training effectiveness, reducing post-go-live support inquiries by **40%** and improving process adoption.

Enterprise SAP ECC-to-S/4HANA Migration & Project Delivery (HCL Technologies)

- Directed **SAP ECC to S/4HANA migration** initiative across supply chain logistics and procurement modules; managed end-to-end project delivery including planning, UAT coordination, system testing, data validation, and handover to ensure zero-downtime cutover and regulatory compliance.
- Developed and validated **migration test cases, user acceptance testing protocols, and post-implementation support procedures**; coordinated with regional IT teams and supply chain stakeholders across multiple locations to ensure consistent migration readiness and business continuity.
- Performed **data reconciliation and schema migration** using **SQL (Oracle, PostgreSQL)**, validating supply chain master data (SKUs, suppliers, locations, demand forecasts) against business requirements; documented **data quality assurance results** and remediation workflows.
- Guaranteed **project closure and seamless service takeover** by establishing **post-implementation support procedures**, creating **operational runbooks**, and training supply chain operations teams; achieved on-time delivery and **100% user specification acceptance**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
