PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Administered and troubleshoot enterprise IT systems supporting 200+ users across banking and financial services environments, resolving **Active Directory account administration**, user provisioning, and access-control issues with **99.5% uptime SLA** compliance.
- Configured and deployed **Windows Client and Server Operating Systems, O365 / M365 Administration**, and **Azure AD / Microsoft Entra ID** identity management across cross-functional IT teams, enabling secure onboarding and offboarding workflows for enterprise business systems.
- Provided hands-on **endpoint patching**, device rollout, and configuration support for Windows infrastructure, coordinating with change-control processes and **ITIL service desk tools** to minimize downtime and ensure compliance across **50+ monthly deployments**.
- Supported **AV and meeting room solutions** including vendor troubleshooting, software updates, and user training for collaboration platforms deployed across Dublin and regional offices.
- Diagnosed and resolved **basic network troubleshooting** issues including connectivity, DNS resolution, and firewall rules using **Linux command-line diagnostics**, reducing mean-time-to-resolution (MTTR) by **35%** through documentation and escalation protocols.
- Managed **service desk ticketing systems** and **ITIL processes** including incident triage, priority assignment, and knowledge-base article authoring; delivered technical support and UAT coordination for ERP and enterprise business system rollouts with zero post-go-live regressions.

SKILLS

IT Service Desk & Administration – Active Directory account administration, Azure AD / Microsoft Entra ID, O365 / M365 Administration, ITIL processes, service desk ticketing systems, incident management, change control.

Operating Systems & Infrastructure – Windows Client and Server Operating Systems, Linux, endpoint patching, device configuration and rollout.

Support & Collaboration Tools – AV and meeting room solutions support, Microsoft Office applications, Jira, Confluence, basic network troubleshooting.

Enterprise Systems & Integrations – ERP integration support, cross-system data flows, REST API integrations, PostgreSQL, MySQL, Oracle database administration.

Production Support & Monitoring – Splunk, CloudWatch, Dynatrace operational monitoring, SLA management, P1/P2 incident response, production troubleshooting.

Data & Reporting – Power BI dashboards, Tableau visualizations, SQL reporting, ETL and data pipeline development.

Development & Automation – Python scripting, Java Spring Boot, Git, Jenkins CI/CD, Docker containerization, AWS (EC2, S3, Lambda).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Enterprise IT Service Desk & System Administration (HCL Technologies)

- Administered **Active Directory account administration** and **Azure AD / Microsoft Entra ID** provisioning workflows for 200+ enterprise users across banking and financial services production environments, managing user access, group policies, and compliance audits.
- Configured and deployed **Windows Client and Server Operating Systems**, coordinating device rollout, image deployment, and **endpoint patching** cycles across quarterly infrastructure updates with **99.5% deployment success rate**.
- Supported **O365 / M365 Administration** including mailbox management, Teams workspace setup, and license optimization; provided **AV and meeting room solutions** technical support for video conferencing and collaboration platforms across 5 regional offices.
- Implemented **ITIL processes** and managed **service desk ticketing systems** for incident triage, change requests, and problem management; reduced ticket resolution time by **40%** through runbook documentation and first-contact resolution protocols.
- Performed **basic network troubleshooting** including DNS resolution, VPN connectivity, firewall rule audits, and **Linux command-line diagnostics**; escalated complex issues to network operations teams with detailed root-cause analysis and remediation steps.

SWIFT Payments Operations & Enterprise Business Systems Support (HCL Technologies)

- Provided production support and **ITIL service desk** coordination for SWIFT messaging operations dashboard supporting €500M+ daily payment flows, managing user access, system configuration changes, and audit trail compliance for a Tier-1 banking client.
- Administered **Windows Server Operating Systems** and **O365 / M365** collaboration tools for banking operations teams; coordinated **device rollout and configuration** for trading and payments processing desks with zero downtime during business hours.
- Supported **enterprise business systems** integrations including ERP modules, transaction reconciliation workflows, and cross-system data flows via REST APIs and SQL database-level connectivity across PostgreSQL, Oracle, and MySQL environments.
- Applied **Active Directory account administration** and role-based access control (RBAC) policies to enforce payment-processing segregation of duties (SoD) and regulatory compliance requirements (GDPR, PSD2, MiFID II) across interconnected systems.
- Delivered hands-on technical support and UAT coordination for change-control deployments, endpoint patching cycles, and system migrations; authored knowledge-base articles and user guides for banking-domain workflows (SEPA instant payments, cross-border settlement, ISO 20022 message flows).

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
