PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported engineering design reviews, technical documentation and drawings for enterprise infrastructure projects using **AutoCAD** and **MS Project**, coordinating cross-functional teams across engineering, construction and commissioning phases with **100% on-time delivery** of project milestones.
- Participated in site activities including inspections, surveys and construction support for large-scale wastewater treatment and utility infrastructure upgrades, maintaining accurate project records and compliance documentation aligned with **Irish health & safety requirements** and quality standards.
- Coordinated with subcontractors, suppliers and internal project teams on method statements, risk assessments and regulatory compliance workflows, ensuring adherence to **health, safety, environmental and quality standards** across all project phases.
- Assisted with commissioning, testing and handover processes for mechanical and electrical installations, supporting senior engineers in **wastewater process engineering** validation and system integration across interconnected infrastructure components.
- Monitored project progress, schedules and quality standards using **project management methodologies**, delivering comprehensive status reports and supporting UAT coordination and post-implementation triage across regulated utility environments.
- Developed proficiency in **wastewater treatment processes**, water infrastructure operations and utilities project delivery within a **regulated environment**, gaining hands-on experience across engineering, construction and operational phases of large-scale infrastructure upgrades.

SKILLS

Engineering & Infrastructure – wastewater treatment processes, wastewater infrastructure, utilities project delivery, mechanical and electrical installations, engineering design reviews, technical documentation.

Project & Construction Management – AutoCAD, MS Project, method statements, risk assessments, commissioning and testing, site surveys and inspections, change-control management, health & safety compliance, quality standards.

Regulatory & Compliance – Irish health & safety requirements, environmental compliance, quality assurance, regulated environment operations, audit trails, compliance documentation.

Cross-functional Collaboration – subcontractor coordination, supplier management, engineering team support, project team leadership, stakeholder communication, UAT support, operational handover.

Data & Documentation – project records management, status reporting, technical documentation, configuration management, post-implementation triage.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Wastewater Treatment Plant Upgrade Support (HCL Technologies)

- Supported engineering design reviews and technical documentation for large-scale **wastewater treatment infrastructure** projects, utilizing **AutoCAD** and **MS Project** to coordinate design validation across mechanical, electrical and process engineering teams.
- Participated in site activities including **inspections, surveys and construction support**, maintaining accurate project records aligned with **Irish health & safety requirements** and regulatory quality standards.
- Assisted with **commissioning, testing and handover processes** for **wastewater process engineering** systems, validating mechanical and electrical installations and supporting integration of interconnected infrastructure components.

Enterprise Infrastructure Project Coordination (HCL Technologies)

- Coordinated with subcontractors, suppliers and internal project teams on **method statements, risk assessments and compliance documentation**, ensuring adherence to **health, safety, environmental and quality standards** across project delivery phases.
- Monitored project progress, schedules and quality standards using **project management methodologies**, delivering comprehensive status reports and supporting **UAT coordination** in regulated utility environments.
- Gained hands-on experience in **utilities project delivery** and **large-scale infrastructure upgrades**, supporting senior engineers and project managers across engineering, construction, commissioning and operational handover phases.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
