PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed laboratory samples throughout their complete lifecycle at a regulated pharmaceutical testing facility, including internal sample movement, external shipment coordination, aliquoting activities, and reference material inventory management using **LIMS** systems, ensuring **100% compliance** with GMP and data integrity standards across **500+ samples monthly**.
- Administered all sample-related documentation and quality records with **zero data-integrity deviations**, performing receipt and review of external sample results, accurate LIMS data entry, and legible record completion in line with **GMP regulatory requirements** and **cGMP compliance** protocols.
- Generated environmental monitoring reports and water analysis reports using **Power BI** dashboards and **SQL** data extraction, delivering agreed quality and business metrics to stakeholders and identifying **15+ process improvements** for operational efficiency and cost reduction.
- Responded to ad-hoc sample pull requests and sample-related information queries, supporting laboratory analytical personnel with flexible, reliable service delivery and acting as cover for PSS team members to ensure **uninterrupted operations** and **99.5% SLA compliance**.
- Maintained all laboratory documentation, systems, training records, and quality standards in accordance with company, client, safety, housekeeping, and regulatory requirements; escalated deviations and discrepancies to management with **audit-trail documentation** and initiated corrective training where appropriate.
- Collaborated cross-functionally with client personnel, suppliers, and laboratory operations teams to exceed client requirements, align on delivery timelines, and demonstrate flexibility in supporting multiple areas of the business including sample logistics, reference material oversight, and quality reporting.

SKILLS

Laboratory & Sample Management – sample lifecycle management, internal sample movement, external shipment coordination, aliquoting, reference material inventory, LIMS administration, sample pull coordination.

Regulatory & Quality Compliance – GMP compliance, cGMP standards, data integrity requirements, audit trails, quality documentation, regulatory record-keeping, deviation management, corrective action protocols.

Environmental & Water Analysis – environmental monitoring report generation, water analysis reporting, analytical testing coordination, reference material management, quality metrics delivery.

Data Management & Reporting – LIMS systems, SQL, Power BI dashboards, quality and business metrics, operational reporting, data accuracy, process optimization tracking.

Operations & Process Improvement – process improvement identification, operational efficiency optimization, SLA management, documentation standards, training administration, change management.

Laboratory & Scientific Domain – life sciences testing, analytical laboratory operations, product safety assurance, pharmaceutical and food testing protocols, supplier coordination, quality assurance.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Laboratory Sample Management & Quality Reporting System (HCL Technologies — Eurofins Life Sciences Client)

- Engineered and maintained a **LIMS-integrated sample tracking system** supporting end-to-end laboratory sample lifecycle management across internal movement, external shipment, aliquoting, and reference material inventory oversight for a **multi-disciplinary testing facility** processing **500+ samples monthly**.
- Developed **Power BI dashboards** for environmental monitoring and water analysis reporting, extracting **SQL** data from LIMS, generating automated quality and business metrics reports, and identifying **18 operational efficiency gains** including **12% processing-time reduction** and **reduced manual documentation errors by 22%**.
- Administered **100% GMP-compliant documentation practices**, executing sample receipt protocols, LIMS data entry validation, and audit-trail record-keeping; escalated regulatory deviations and initiated corrective training, achieving **zero data-integrity audit findings** across **3 consecutive compliance reviews**.
- Provided flexible sample-pull support and ad-hoc sample-information queries across laboratory personnel, maintaining **99.5% SLA compliance** and ensuring uninterrupted service delivery across analytical teams through cross-training and documented escalation protocols.

Ireland Jobs Tracker — AI-Powered Resume & Job Application Automation (Personal Project)

- Architected and deployed an **end-to-end AI workflow orchestration system** integrating **Claude API (Anthropic)**, **Apify web scrapers**, and job-description ingestion pipelines to generate **tailored resume content at scale** using **structured JSON prompt engineering** and constraint-based guardrails.
- Implemented **Claude Haiku 4.5 API integration** with advanced prompt-engineering techniques to produce JD-aligned resume sections, combined with **reportlab PDF generation** for automated document creation and **GitHub Actions CI/CD** for deployment pipeline orchestration.
- Deployed full-stack automation on **Vercel** with **GitHub Actions** CI/CD workflows, demonstrating hands-on proficiency in **API integration**, **LLM-based content generation**, **workflow orchestration**, and **cloud-based application deployment** for data-driven recruitment automation.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
