PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed sample lifecycle operations across laboratory environments, including internal sample movement, external shipment coordination, complex sample pulls, aliquoting activities, and reference material inventory management using **LIMS** systems; processed **500+** samples monthly with **100%** documentation accuracy.
- Administered all sample-related documentation and data entry workflows, ensuring receipt, review, and accurate entry of external sample results onto **LIMS** in compliance with **GMP** and **data integrity** requirements; maintained **zero** non-conformances across **12+** consecutive audit cycles.
- Generated environmental monitoring and water analysis reports using **Power BI** and **SQL**-based data pipelines, delivering agreed quality and business metrics to stakeholders; automated report generation reducing manual effort by **40%** and improving timeliness by **3** business days.
- Responded to ad-hoc sample pull requests and sample-related information queries, coordinating with laboratory analytical personnel and cross-functional teams to ensure uninterrupted service delivery; resolved **95%** of urgent requests within **4** hours.
- Identified and communicated process improvement opportunities, optimisation recommendations, and operational efficiency gains to management; implemented **6+** process enhancements resulting in **25%** throughput improvement and **15%** reduction in sample-handling discrepancies.
- Maintained all documentation, systems, training records, and housekeeping standards in accordance with **GMP**, company, client, and quality requirements; escalated deviations and discrepancies to management and initiated corrective training, achieving **100%** compliance certification.

SKILLS

Laboratory Operations & Sample Management – Sample lifecycle management, LIMS administration, sample pulls, aliquoting, reference material inventory, external shipment coordination, ad-hoc sample requests.

Quality, Compliance & Regulatory – GMP compliance, data integrity, regulatory documentation, audit trail management, quality metrics delivery, deviation escalation, cGMP standards.

Data Analytics & Reporting – Power BI dashboards, SQL data pipelines, environmental monitoring reports, water analysis reporting, business metrics, quality reporting, data validation.

Documentation & Systems Management – LIMS systems, training records, housekeeping standards, documentation management, change-control coordination, UAT support.

Technical Skills – SQL (PostgreSQL, MySQL, Oracle), Python scripting, data pipeline development, ETL workflows, Power Query, analytical reporting.

Cross-functional Collaboration – Client personnel coordination, supplier management, laboratory personnel support, team coverage, flexibility across business areas, stakeholder communication.

Professional Standards – GMP & data integrity protocols, quality assurance, process optimisation, operational efficiency, regulatory compliance, professional documentation.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Sample Operations & LIMS Integration (HCL Technologies)

- Designed and implemented **LIMS-integrated** sample tracking workflows for banking and enterprise client environments, managing end-to-end sample lifecycle including receipt, aliquoting, external shipment coordination, and result entry with **100% GMP** and **data integrity** compliance.
- Built **Power BI** dashboards and **SQL**-based reporting pipelines to generate environmental monitoring and water analysis reports, delivering real-time operational metrics and quality KPIs to management and client stakeholders; automated report distribution saving **8** hours per week.
- Established and maintained comprehensive training records and documentation systems aligned with **GMP**, quality, and regulatory standards; escalated deviations and initiated corrective action workflows, achieving **zero** audit findings across **3+** client audits.

Laboratory Process Optimisation & Operational Efficiency (HCL Technologies)

- Identified and implemented **6+** process improvements in sample handling, documentation workflows, and ad-hoc request management, resulting in **25%** throughput improvement and **15%** reduction in sample-handling discrepancies.
- Coordinated with laboratory analytical personnel, client operations teams, and external suppliers to standardise sample pull procedures and improve response times; achieved **95%** on-time delivery for urgent ad-hoc requests within **4-hour** SLA.
- Proactively communicated operational efficiency opportunities and optimisation recommendations to management and client stakeholders, supporting continuous improvement culture and delivering measurable gains in accuracy, timeliness, and cost-effectiveness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
