PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **Python automation scripts** for production data pipelines and scheduled reporting tasks, reducing manual operational overhead by **35%** and improving data accuracy across enterprise systems; documented automation workflows and knowledge-sharing materials for helpdesk teams and end-users.
- Provided **first-line IT support** and troubleshooting for **Microsoft 365 applications** (Outlook, Teams, OneDrive, SharePoint), password resets, MFA queries, and access management across **200+ banking-domain users**; maintained IT asset records and escalation protocols to ensure service continuity.
- Assisted in **AI tools testing and deployment** including **Microsoft Copilot** evaluation for business workflows; documented responsible and secure use policies aligned with **data protection requirements** and company compliance standards; delivered **knowledge-sharing presentations** and user-guidance materials to non-technical staff.
- Supported **Windows operating systems** administration, **software installation**, and **licence tracking** for approved enterprise applications; prepared and configured laptops for new starters and planned IT equipment replacement cycles, reducing onboarding time by **40%**.
- Developed IT induction and training materials including user guides, FAQs, quick-reference slides, and demo walkthroughs for IT systems, processes, and **Microsoft 365 tools**; delivered lunchtime knowledge-sharing talks to build colleague confidence in digital tool adoption across **50+ team members**.
- Managed IT system integrations and change-control processes for enterprise business systems; coordinated onboarding and offboarding workflows, UAT support, and post-implementation documentation; maintained clear, user-friendly IT process guides to support continuous improvement and colleague feedback incorporation.

SKILLS

IT Support & Operations – Microsoft 365 (Outlook, Teams, OneDrive, SharePoint), Windows operating systems, first-line support, password resets, MFA management, hardware troubleshooting, software installation, IT asset management.

Automation & Scripting – Python, data pipeline automation, scheduled reporting, workflow documentation.

Digital Tools & AI – Microsoft Copilot, approved AI tools testing, responsible AI deployment, data protection compliance.

Knowledge Sharing & Training – IT induction materials, user guides, FAQs, quick-reference documentation, presentation delivery, demo walkthroughs, lunchtime knowledge talks.

IT Systems & Enterprise Platforms – Enterprise business systems support, ERP integration, change-control management, onboarding/offboarding workflows, system configuration, UAT coordination.

Software & Licence Management – Software tracking, user access management, licence administration, approved software deployment.

Technical Communications – IT process documentation, compliance guidance, user-friendly materials creation, stakeholder collaboration.

EDUCATION AND TRAINING

PROJECTS

Digital Transformation & AI Enablement Program (HCL Technologies)

- Designed and delivered a comprehensive **AI tools adoption and governance framework** for **Microsoft Copilot** and emerging digital solutions, including **data protection compliance checklists**, responsible-use policies, and secure implementation guidelines aligned with company and regulatory standards.
- Created **24 user-guidance materials** (slides, walkthroughs, FAQs, quick guides) covering IT systems, **Microsoft 365 tools**, automation scripts, and AI tool best practices; delivered **12 knowledge-sharing sessions** to **180+ colleagues** across business units, achieving **92% satisfaction** on material clarity and usefulness.
- Built **Python automation scripts** for IT operations workflows including user provisioning, licence auditing, and asset tracking; documented each automation's logic, maintenance requirements, and troubleshooting steps in user-friendly format, enabling handoff to support team with zero defects.
- Established IT onboarding and offboarding process documentation with step-by-step checklists, reducing new-starter setup time by **40%** and improving compliance with **Microsoft 365 access-control policies**; coordinated **15+ batch onboardings** involving laptop configuration, software installation, and account provisioning.

IT Asset & Licence Management Dashboard (HCL Technologies)

- Developed a **centralized IT asset tracking system** for hardware inventory, software licences, and user access records; integrated **Python scripts** with backend databases to auto-populate asset metadata and flag licence expiry alerts **60 days in advance**.
- Created intuitive **user-facing documentation and admin guides** for asset requests, equipment replacement workflows, and licence allocation; reduced IT helpdesk ticket volume for asset queries by **28%** through self-service knowledge materials and process clarity.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
