PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and validated **R and R Shiny** programs for statistical analysis and clinical trial data reporting, delivering **15+ interactive dashboards** for biostatisticians and cross-functional teams to interpret study requirements and ensure accurate implementation of statistical analyses.
- Prepared and reviewed **statistical analysis plans (SAPs)**, programming specifications, and derived datasets to meet **ICH/GCP guidelines** and regulatory standards, ensuring **100% data integrity** compliance across clinical research workflows.
- Executed end-to-end **R-based statistical programming** for clinical trial analysis, applying **statistical methodologies** including hypothesis testing, regression analysis, and time-series forecasting to support accurate interpretation of clinical data and successful delivery of research projects.
- Mentored junior programmers and trained **8+ team members** on **R programming techniques**, best practices in statistical programming, and **regulatory compliance frameworks**, improving team capability and reducing programming errors by **30%**.
- Collaborated with biostatisticians, data managers, and regulatory teams to translate complex clinical study requirements into **validated R code**, ensuring alignment with **GCP standards** and audit-trail requirements across **5+ concurrent clinical trials**.
- Demonstrated strong analytical and problem-solving skills through **data validation workflows** and **statistical verification scripts** in **R**, identifying and resolving **98% of data quality issues** before statistical analysis with meticulous attention to detail and independent execution.

SKILLS

Statistical Programming & Clinical Analysis – R, R Shiny, statistical methodologies, hypothesis testing, regression analysis, time-series analysis, clinical trial programming, statistical analysis plans (SAPs), data validation.

Regulatory & Compliance – ICH/GCP guidelines, data integrity, audit trails, regulatory standards, clinical research compliance.

Data Analysis & BI Tools – Power BI, Tableau, data modelling, exploratory data analysis, statistical reporting, interactive dashboards, derived dataset development.

Programming Languages – R, Python, SQL, Java, shell scripting.

Data Management & Databases – PostgreSQL, MySQL, Oracle, clinical data management systems, data warehousing, ETL workflows.

Collaboration & Communication – cross-functional team collaboration, conveying statistical concepts to non-technical stakeholders, Jira, Confluence, Agile methodologies.

Cloud & DevOps – AWS, Docker, Jenkins CI/CD, Git, Linux.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Clinical Trial Statistical Dashboard (HCL Technologies)

- Developed and validated **R Shiny applications** for real-time statistical analysis and reporting of clinical trial data, enabling biostatisticians to conduct exploratory data analysis and derive clinical insights with **sub-second response times**.
- Implemented **statistical analysis workflows** in **R** including data cleaning, transformation, and statistical hypothesis testing, ensuring **100% compliance with ICH/GCP guidelines** and regulatory audit standards.
- Prepared comprehensive **statistical analysis plan (SAP) documentation** and programming specifications for clinical datasets, coordinating UAT with **cross-functional clinical research teams** and achieving **zero post-deployment defects**.

Ireland Jobs Tracker – AI-Powered Resume Generation Engine

- Engineered end-to-end **Python-based data pipeline** integrating **Apify web scrapers** for job description ingestion, **Claude API (Anthropic)** for AI-driven content generation, and **reportlab** for PDF production, automating resume tailoring at scale.
- Applied **statistical prompt engineering** and constraint-based validation to ensure **99.2% accuracy** in job-requirement extraction and resume content matching, demonstrating strong **analytical and problem-solving skills** in AI workflow design.
- Deployed automated **GitHub Actions CI/CD pipeline** and **Vercel hosting**, delivering production-ready resume artifacts on-demand, showcasing expertise in **data integration, statistical data validation, and regulatory-grade automation**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
