PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and delivered **Azure and Microsoft 365 migrations** for enterprise banking clients, implementing **security-by-design principles** across cloud infrastructure modernisation projects with zero compliance violations.
- Conducted **Copilot and AI readiness assessments** including data exposure and access risk reviews for financial-services organisations; implemented **AI data infiltration and information leakage controls** using **Microsoft Purview DLP and Information Protection**.
- Deployed and enhanced **Microsoft 365 security** infrastructure including **Entra ID, Conditional Access, Microsoft Defender**, and **Purview** across **25+ tenant posture improvement** projects; managed **DNS-layer security** via **Cisco Umbrella** configuration and monitoring.
- Architected secure solution designs for **Azure infrastructure** and **Modern Workplace** implementations; collaborated with clients to translate business requirements into governance-first, **information governance** compliant technical specifications supporting **regulatory compliance** and audit readiness.
- Managed **Microsoft Server technologies** including **Active Directory, Exchange, RDS, and SQL Server** across hybrid cloud and on-premises environments; performed on-site hardware installations and infrastructure provisioning for **hyperscale deployments**.
- Executed **security uplift projects** reducing tenant configuration drift by **40%**; implemented **Hyper-V and VMware** virtualisation governance; drove continuous improvement in technical and security processes through **change-control management** and cross-functional stakeholder coordination.

SKILLS

Cloud & Modern Workplace – Microsoft Azure (compute, storage, networking, security), Microsoft 365, Azure AD / Entra ID, Conditional Access, Exchange Online, Microsoft Teams, OneDrive, SharePoint.

Security & Governance – Microsoft Purview, Data Loss Prevention (DLP), Information Protection, Microsoft Defender for Cloud, Defender for Endpoint, Cisco Umbrella, security-by-design, AI readiness assessment, information governance, data protection controls.

Microsoft Server & Infrastructure – Active Directory, Exchange Server, Remote Desktop Services (RDS), SQL Server, Hyper-V, VMware, hybrid cloud architecture, on-premises integrations.

Networking & Infrastructure – DNS-layer security, network design, virtual networking, firewall configuration, VPN, site-to-site connectivity, network troubleshooting.

Solution Design & Client Engagement – requirements gathering, solution architecture, business requirements analysis, security considerations, benefits articulation, sales enablement, UAT coordination, post-implementation support.

Enterprise & DevOps Tools – Git, Jenkins, Jira, Confluence, cloud migration tooling, infrastructure-as-code concepts.

Certifications & Learning – Microsoft Azure certifications (AZ-900, AZ-104, AZ-500 pathway), IELTS Band 7/9, continuous technology adoption.

EDUCATION AND TRAINING

PROJECTS

Azure & Microsoft 365 Security Migration for EMEA Financial Services (HCL Technologies)

- Led **Microsoft 365 migration** and **security uplift** for a pan-European banking client; designed **Entra ID governance**, **Conditional Access policies**, and **Microsoft Purview DLP** frameworks to enforce **information protection** across mailbox, SharePoint, and Teams workloads.
- Conducted **Copilot and AI readiness assessment** evaluating data exposure risk and **access controls** for AI adoption; implemented **AI data infiltration controls** and **information leakage prevention** measures aligned with **GDPR** and financial-services regulatory obligations.
- Deployed **Cisco Umbrella** for **DNS-layer security** and threat filtering across 15+ office locations; configured **Microsoft Defender for Cloud** and **Defender for Endpoint** for unified security posture; reduced security incidents by **35%** within 6 months post-deployment.

Enterprise Server Infrastructure & Tenant Posture Hardening (HCL Technologies)

- Managed **Active Directory**, **Exchange Server**, **RDS**, and **SQL Server** infrastructure for large-scale ERP and business-system environments; coordinated **change-control management** for system configuration updates, UAT, and post-go-live support.
- Executed **Microsoft Server** upgrade and **hybrid cloud integration** projects; provisioned **Hyper-V** and **VMware** virtualisation platforms and managed **on-premises to Azure** infrastructure transitions with zero downtime.
- Delivered **security uplift and tenant posture improvement** across 25+ clients; hardened **Microsoft 365 tenant** configuration, eliminated non-compliant settings, and established **continuous improvement** processes for governance and compliance monitoring.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
