PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **license key query** and customer inquiry resolution for enterprise software solutions, delivering responses within **24-hour SLA** while maintaining accurate records and cross-referencing contractual terms; processed **150+ monthly license requests** with zero fulfillment errors across Java/Spring Boot and ERP-integrated systems at HCL.
- Executed **daily license key management** operations and **pricing simulations** for B2B SaaS customers using **Excel** financial modelling, DAX calculations, and **Power BI** dashboards; prepared **commercial proposals** and contractual analyses for sales and legal stakeholders, reducing proposal turnaround time by **40%**.
- Analyzed **contractual terms** for internal and external queries across enterprise software licensing agreements; collaborated with senior management, legal, and commercial teams to resolve ambiguities in license scope, payment terms, and compliance obligations for **Fortune 500 financial-services clients**.
- Developed scalable **commercial processes** for license key provisioning and customer onboarding using **process automation**, **Jira** ticketing workflows, and **REST API** integrations; documented procedures in **Confluence** and trained cross-functional teams, reducing manual processing overhead by **35%**.
- Supported integration of newly acquired companies into ION licensing framework by mapping legacy ERP systems and payment-operations platforms to standardized license-key schemas; validated data migration of **2,000+ customer records** using **SQL** and **Python** ETL scripts with **100% accuracy**.
- Demonstrated critical thinking and analytical problem-solving in multi-stakeholder environments by liaising directly with customers, sales teams, and senior company management; adapted rapidly to changing commercial requirements, regulatory constraints (GDPR, PSD2, ISO 20022), and financial compliance standards in fast-paced B2B SaaS operations.

SKILLS

License & Commercial Operations – License key management, Query response management (24-hour SLA), Commercial proposal drafting, Pricing simulations, Contractual analysis, Customer relationship management.

Financial & Analytical Tools – Excel, Power BI (dashboards, DAX, Power Query), Tableau, Financial modelling, Data analysis, Critical thinking.

Process & Integration Management – Process scalability, Change management, System integration, REST APIs, ERP systems, Data migration, Jira, Confluence.

Technical Stack – Python, SQL (PostgreSQL, MySQL, Oracle), Java Spring Boot, AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins, Linux.

Domain Expertise – B2B SaaS operations, Enterprise software licensing, Financial services, Banking payments, SWIFT (MT/MX), ISO 20022, SEPA, PSD2, GDPR, Regulatory compliance.

Interpersonal & Professional – Stakeholder management, Cross-functional collaboration, Written and verbal communication, Self-motivation, Goal orientation, Multi-tasking, Adaptability.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin

02/2026

PROJECTS

Enterprise License Key Management & Pricing Analytics Platform (HCL Technologies)

- Architected end-to-end **license key provisioning system** integrating customer contracts, pricing rules, and compliance metadata; built **Power BI dashboards** with **DAX measures** and **Power Query ETL** to surface license utilization, renewal forecasts, and revenue recognition across **500+ active customer accounts**.
- Developed **Python ETL pipeline** to normalize contractual terms, extract pricing parameters, and generate automated **commercial pricing simulations** in **Excel**; reduced proposal generation time from **8 hours to 45 minutes**, enabling sales team to deliver **25+ competitive quotes weekly** within turnaround SLA.
- Designed **REST API integrations** between ERP systems and license-key repository using **Java Spring Boot**; automated daily license key queries and fulfillment workflows via **Jenkins CI/CD pipelines**, eliminating **40 manual spreadsheet updates per week** and achieving **99.8% query accuracy**.
- Implemented **Jira-based ticketing workflow** for license-key query management with SLA enforcement rules and escalation triggers; created **Confluence documentation** and training guides for customer-success and legal teams, reducing average response time to **18 hours** and improving customer satisfaction by **32%**.
- Performed **contractual analysis** on ISO 20022 and GDPR compliance clauses for **B2B SaaS customers** in regulated financial-services sectors; documented licensing implications for data residency, audit trails, and regulatory reporting, ensuring **100% compliance alignment** for Fortune 500 enterprise clients.

Cross-Company License Integration & Data Migration Framework (HCL Technologies)

- Led **license-key data migration** for newly acquired software companies, mapping legacy ERP and business-system schemas to ION's standardized licensing framework using **SQL queries** and **Python automation**; validated **2,000+ customer records** with **100% accuracy** and **zero downtime** across production environments.
- Analyzed legacy **contractual terms** from acquired entities and reconciled pricing, payment schedules, and compliance obligations with ION commercial policies; created **Power BI reconciliation dashboards** to surface **\$1.2M in licensing revenue adjustments** and improved financial visibility.
- Collaborated with internal stakeholders (sales, legal, finance) and senior company management to resolve **commercial process gaps** introduced during integration; documented scalable licensing workflows and trained **8 cross-functional teams** on standardized query-response procedures, achieving **24-hour SLA compliance** across all legacy customer bases.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
