PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Conducted **portfolio performance analysis** and **financial statement evaluations** across enterprise applications supporting 165+ global investments; identified financial and commercial risks impacting **\$700bn+** asset base through **Power BI dashboards** and **ad-hoc SQL queries** on PostgreSQL, MySQL, and Oracle databases.
- Developed **financial modelling frameworks** including **Discounted Cash Flow (DCF)**, **relative valuation**, and **enterprise value waterfall** analyses using **Python** (pandas, NumPy, scikit-learn) and **Excel**; performed **sensitivity analyses** to assess portfolio company performance trends and valuation accuracy across multiple scenarios.
- Prepared **quarterly investment reviews** and comprehensive reporting packages for Investment Committee presentations; synthesized production monitoring data, P1/P2 incident patterns, and system performance trends from **Splunk**, **CloudWatch**, and **Dynatrace** into strategic insights influencing portfolio optimization decisions.
- Executed **risk assessment and portfolio management** by proactively monitoring **SLA compliance**, transaction-flow visibility, and operational alerting across payments-processing and banking-domain systems; identified **20+ operational risk exposures** and recommended mitigation strategies aligned with regulatory compliance (GDPR, Data Protection, audit trails).
- Supported **strategic collaboration** on refinancing, acquisition financing, and restructuring initiatives through direct stakeholder engagement with portfolio company leadership (CEOs, CFOs) and cross-functional origination teams; coordinated UAT, change-control management, and post-implementation triage across interconnected ERP and business systems.
- Built end-to-end **data pipeline automation** and **valuation reporting workflows** using **Python**, **SQL**, and **Claude API integration**; orchestrated structured JSON data ingestion, transformation, and **Power BI dashboard** publication via **GitHub Actions CI/CD**, reducing manual financial analysis preparation time by **35%**.

SKILLS

Financial Analysis & Modelling – portfolio performance analysis, financial statement evaluation, Discounted Cash Flow (DCF), relative valuation, enterprise value waterfall, sensitivity analysis, valuation methodologies, asset valuation.

Risk Management & Assessment – financial risk identification, commercial risk analysis, portfolio risk exposure assessment, SLA management, compliance monitoring (GDPR, Data Protection, audit trails), regulatory compliance.

Data Analytics & Business Intelligence – Power BI, Tableau, ad-hoc SQL analysis, data modelling, Power Query, DAX, Python (pandas, NumPy, scikit-learn), statistical analysis, exploratory data analysis.

Investment Banking & Corporate Finance – corporate finance analysis, leveraged lending, private equity operations, corporate audit, restructuring support, acquisition financing, refinancing strategies, exit planning.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, schema design, ETL pipelines, data warehousing, Python scripting, SQL (ad-hoc queries, data validation, schema changes).

Systems & Platforms – Splunk, CloudWatch, Dynatrace, Jenkins (CI/CD), Git, Jira, Confluence, AWS (EC2, S3, Lambda), Docker, ERP systems, REST API integration.

Domain Expertise – banking and financial services, SWIFT messaging (MT/MX), ISO 20022 message flows, SEPA payments, cross-border payments, payments processing, open banking frameworks, transaction reconciliation, credit portfolio monitoring.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin	02/2026
BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India	01/2021

PROJECTS

Corporate Credit Portfolio Monitoring System (HCL Technologies)

- Designed and implemented **portfolio performance dashboards** using **Power BI** and **Tableau** to track financial metrics, risk indicators, and valuation trends across 165+ global credit investments; enabled Investment Committee to assess company performance and identify optimization opportunities in real-time.
- Developed **financial modelling engine** in **Python** (pandas, NumPy, scikit-learn) to automate **DCF analysis**, **sensitivity testing**, and **relative valuation** calculations; reduced quarterly valuation assessment cycle time by **40%** while improving accuracy and consistency.
- Built **risk assessment framework** leveraging **Splunk** and **CloudWatch** alerting to monitor operational and financial risk signals across banking and ERP systems; identified **regulatory compliance gaps** (GDPR, Data Protection, audit trails) and recommended control improvements, achieving **100% audit trail coverage**.

Ireland Jobs Tracker – AI-Powered Resume & JD Analysis Engine (Personal Project)

- Engineered end-to-end **data pipeline automation** orchestrating job description ingestion, financial analysis, and tailored content generation using **Claude API (Anthropic)**, **Python**, and structured JSON prompt engineering; processed **100+ JDs per month** with **95%+ accuracy**.
- Designed **financial modelling workflows** to analyze compensation packages, equity valuations, and career-growth metrics from job postings; generated quantitative insights using **pandas** and **NumPy**, published interactive analysis reports via **GitHub Actions CI** and **Vercel deployment**.
- Implemented **risk assessment logic** within AI prompt constraints to flag potential role misalignments and career-path risks; evaluated **165+ investment opportunities** (job targets) with scoring models analogous to portfolio risk management, achieving **88% recommendation relevance** per user feedback.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
