PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Configured and managed **Microsoft Entra ID (Azure AD)** for identity governance, conditional access policies, and multi-factor authentication (MFA) across enterprise banking environments, reducing unauthorized access incidents by **40%** while maintaining SLA compliance.
- Deployed and operationalized **Microsoft Intune** for device compliance enforcement, application deployment, and endpoint configuration management across **500+** production devices; integrated with **Microsoft Defender XDR** (Defender for Endpoint, Defender for Office 365) to achieve real-time threat detection and response aligned with Zero Trust security principles.
- Monitored and responded to security alerts using **Microsoft Sentinel** and enterprise SIEM tools (**Splunk, Dynatrace**); led incident investigations for P1/P2 security events, documented remediation strategies, and maintained audit trails compliant with **GDPR** and financial services regulatory requirements.
- Implemented **Privileged Identity Management (PIM)** and role-based access controls (RBAC) across Azure resources; applied **Zero Trust principles** for identity, device, and application security; configured network security groups, firewalls, and encryption to secure Azure infrastructure in production banking systems.
- Managed **ITIL-aligned incident, service request, and problem management** processes; created and maintained knowledge management systems, standard operating procedures (SOPs), and runbooks; participated in Change Advisory Board (CAB) meetings and problem escalations, achieving **95%+** KPI compliance for Level 3 incident resolution timelines.
- Demonstrated phishing awareness, threat evaluation, and cybersecurity best practices including **Identity and Access Management (IAM)**, **Multi-Factor Authentication (MFA)**, and **Microsoft Purview Information Protection**; provided third-line technical support and cross-functional liaison with ICT specialists to translate security solutions into operational environments.

SKILLS

Identity & Access Management – Microsoft Entra ID (Azure AD), Privileged Identity Management (PIM), role-based access controls (RBAC), conditional access policies, multi-factor authentication (MFA).

Cloud Security & Endpoint Management – Microsoft Intune, Microsoft Defender XDR, Defender for Endpoint, Defender for Office 365, network security groups, Azure firewalls, encryption, Zero Trust security model.

Security Operations & Incident Response – Microsoft Sentinel, Splunk, Dynatrace, threat detection, security incident investigation, remediation strategies, GDPR compliance, audit trail management.

ITIL & Service Management – incident management, service request management, problem management, change management, continual service improvement, knowledge management systems, SOP development, runbooks.

Cloud & Infrastructure – Microsoft Azure, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins CI/CD, change-control management.

Data & Analytics – SQL (PostgreSQL, MySQL, Oracle), Python, Power BI, Tableau, data modelling, ETL, business intelligence.

Domain Expertise – banking and financial services, payments processing, SWIFT messaging (MT/MX), ISO 20022, SEPA, PSD2, ERP integration support, enterprise business systems.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Banking Security & Identity Operations (HCL Technologies)

- Architected and deployed **Microsoft Entra ID (Azure AD)** identity governance platform supporting **2,000+** banking domain users; configured **conditional access policies**, **MFA**, and **Privileged Identity Management (PIM)** to enforce Zero Trust principles across SWIFT messaging dashboard and payments-operations infrastructure.
- Implemented **Microsoft Intune** device compliance management for **450+** production devices; integrated **Microsoft Defender XDR** (Endpoint, Office 365) with **Microsoft Sentinel** SIEM to achieve real-time security monitoring and **P1/P2 incident response** within SLA targets; maintained **GDPR** and financial services audit trails.
- Established **ITIL-aligned incident management, problem management**, and **change advisory board (CAB)** processes for security operations; developed knowledge management documentation, SOPs, and runbooks for cross-functional ICT teams; achieved **96%** Level 3 incident resolution KPI compliance.

Zero Trust Security Framework & Cybersecurity Incident Response Program (HCL Technologies)

- Led threat evaluation and security incident response program covering **phishing awareness, Identity and Access Management (IAM), multi-factor authentication**, and **Microsoft Purview Information Protection**; documented remediation strategies and security best practices across enterprise banking systems.
- Secured **Azure resources** using network security groups, firewalls, and encryption standards; monitored security alerts via **Microsoft Sentinel** and **Splunk**; conducted root-cause analysis for **30+** security incidents and provided actionable remediation guidance to ICT operations and compliance teams.
- Demonstrated **cybersecurity best practices** and Zero Trust principles across identity, device, and application layers; liaised with banking-domain business analysts and regulatory stakeholders to translate technical security controls into operational compliance frameworks.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
