PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **shipment schedules and logistics coordination** for enterprise manufacturing workflows at HCL Technologies, collaborating with cross-functional internal teams and external manufacturing partners to ensure **on-time delivery** of materials and adherence to production timelines; resolved **95%+ of scheduling conflicts** proactively to prevent production delays.
- Maintained and operated **critical databases** (PostgreSQL, MySQL, Oracle) to ensure **accuracy and integrity of data** supporting KPIs and business operations; designed **automated data validation pipelines** using Python and SQL that reduced manual reconciliation time by **40%** and eliminated data entry errors.
- Created **operational dashboards and reports** using **Power BI and Tableau** to monitor shipment status, manufacturing schedules, and supply-chain KPIs; delivered **ad-hoc analyses** and data-driven recommendations to support time-sensitive decision-making for external manufacturing operations.
- Led **cross-functional meetings** with internal stakeholders and external Contract Manufacturing Organizations (CMOs) and 3PL partners to drive schedule adherence, resolve shipping documentation errors, and eliminate logistics delays; facilitated communication on GMP requirements, compliance obligations, and shipment readiness criteria.
- Authored, maintained, and revised **Standard Operating Procedures (SOPs) and Work Instructions** for manufacturing and logistics workflows; served as primary liaison between operations teams and external partners for documentation accuracy and process compliance across interconnected systems.
- Demonstrated proficiency in **Excel, PowerPoint, Word, and shared work environments** (SharePoint, Box); managed master schedule files, created executive reports, and maintained audit trails for all shipment requests and regulatory compliance documentation; worked independently with minimal supervision in fast-paced, ambiguous environments requiring flexibility and resourcefulness.

SKILLS

Logistics & Supply Chain Operations – Shipment scheduling, on-time delivery management, external manufacturing coordination, Contract Manufacturing Organization (CMO) collaboration, 3PL management, production schedule adherence, GMP requirements management, trade compliance, inventory control.

Data Management & Analytics – Database design and maintenance (PostgreSQL, MySQL, Oracle), data validation, KPI reporting, Power BI dashboards, Tableau visualizations, DAX measures, Python data pipelines, SQL query optimization, ETL processes, data warehousing.

Office & Collaboration Tools – Excel, PowerPoint, Word, SharePoint, Box, eRoom, Jira, Confluence, cross-functional team coordination.

Process Documentation & Quality Systems – SOP authorship and maintenance, Work Instruction development, change-control management, GMP/Quality systems compliance, regulatory documentation, audit trail management.

Programming & Automation – Python scripting, SQL (ad-hoc and schema design), Java Spring Boot, REST API integration, automated reporting, workflow orchestration.

Communication & Interpersonal Skills – Stakeholder management, active listening, written and oral communication, problem resolution, cross-functional collaboration, vendor/partner relations, time-sensitive decision support.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker containerization, CI/CD (Jenkins, Git), Linux, monitoring and alerting systems.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin	02/2026
BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India	01/2021

PROJECTS

External Manufacturing Logistics Dashboard (HCL Technologies)

- Designed and deployed an **integrated logistics operations dashboard** using **Power BI** that consolidated shipment schedules, manufacturing timelines, and CMO status across interconnected enterprise systems; enabled real-time visibility into **on-time shipment adherence** and production readiness across IOPS, EM, and Contract Manufacturing Organizations.
- Built **automated data pipelines** using Python and SQL to ingest shipment-request data, GMP compliance flags, and 3PL documentation from multiple sources; implemented **data validation guardrails** to ensure accuracy and integrity of logistics KPIs reported to stakeholders.
- Authored **20+ Standard Operating Procedures and Work Instructions** for shipment scheduling, documentation verification, and external partner coordination; maintained version control and change-control protocols to ensure regulatory compliance and operational consistency.

Supply-Chain Schedule Optimization & Reconciliation Engine (HCL Technologies)

- Developed an **automated reconciliation system** using **Python, SQL, and scheduled ETL workflows** that matched manufacturing schedules across IOPS systems, CMO production plans, and shipment requests; reduced manual reconciliation effort by **35%** and eliminated **90%+ of scheduling conflicts** before they impacted production.
- Created **executive reporting suite** in Power BI and Tableau tracking on-time shipment performance, material readiness, and compliance metrics; delivered weekly and ad-hoc analyses supporting time-sensitive decisions by EM operations leadership and external partner management.
- Collaborated directly with **3PL storage locations and CMOs** to resolve shipping documentation errors and complaints; implemented standardized reporting templates and communication protocols that improved **complaint resolution time by 50%** and strengthened external partner relationships.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
