PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and deployed **Azure infrastructure** across compute, networking, identity, and storage services; managed **Infrastructure as Code** using **Terraform** and **Bicep** templates to provision and version-control enterprise cloud resources for **25+ microservices** in production environments.
- Built **PowerShell** and **Azure CLI** automation scripts for infrastructure provisioning, configuration management, and operational tasks; reduced manual intervention by **60%** through CI/CD pipeline integration using **GitHub Actions** and **Azure DevOps**.
- Implemented and managed **Entra ID**, **Multi-Factor Authentication (MFA)**, and **Conditional Access** policies across **Microsoft 365** tenants; supported identity service operations and user provisioning workflows for enterprise clients with **5,000+ users**.
- Monitored Azure platform availability, performance, and security using **Azure Monitor**, **Application Insights**, and **Log Analytics**; resolved **P1/P2 cloud incidents** following **ITIL incident management** processes with **99.5% SLA compliance**.
- Implemented cloud security controls, vulnerability assessments, and compliance frameworks across Azure environments; conducted **security best-practices reviews** for identity, networking, and data protection aligned with enterprise regulatory requirements.
- Executed infrastructure cost optimisation initiatives through **Azure Reserved Instances**, resource tagging strategies, and consumption-based rightsizing; contributed to **change management** and post-implementation reviews for **15+ infrastructure transformation projects**.

SKILLS

Cloud & Infrastructure – Azure (compute, networking, identity, storage), Infrastructure as Code, Terraform, Bicep, Azure DevOps, cloud security, cost optimisation.

Automation & Scripting – PowerShell, Azure CLI, GitHub Actions, CI/CD pipelines, Linux shell scripting, automation frameworks.

Identity & Access Management – Entra ID, Multi-Factor Authentication (MFA), Conditional Access, Microsoft 365, identity provisioning, access governance.

Monitoring & Incident Management – Azure Monitor, Application Insights, Log Analytics, incident management, ITIL processes, problem management, SLA management.

Enterprise Technologies – Java, Spring Boot, Python, SQL (PostgreSQL, MySQL, Oracle), REST APIs, Docker, Git, Jira, Confluence.

Data & Analytics – Power BI, Tableau, SQL data modelling, data warehousing, ETL pipelines, analytics dashboards.

Certifications & Credentials – IELTS Academic Band 7/9, Full Stack Java Spring Boot & Angular, Web Development (Coursera), Python Programming (Coursera).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Azure Enterprise Platform Infrastructure & Automation (HCL Technologies)

- Architected and deployed **Infrastructure as Code** framework using **Terraform** and **Bicep** to provision **Azure compute, networking, storage, and identity services** across development, staging, and production environments for enterprise banking and payments applications.
- Developed **PowerShell** and **Azure CLI** automation toolkits for infrastructure provisioning, configuration management, and operational runbooks; integrated with **GitHub Actions** and **Azure DevOps** CI/CD pipelines to enable infrastructure-as-code deployment workflows and reduce provisioning time by **70%**.
- Configured and operated **Entra ID**, **MFA**, and **Conditional Access** policies for **Microsoft 365** tenant management; implemented identity governance controls aligned with enterprise security and compliance standards.
- Implemented **Azure Monitor**, **Application Insights**, and **Log Analytics** for platform monitoring and operational visibility; resolved **P1/P2 incidents** following **ITIL incident and change management** processes with **99.5% uptime SLA** across **20+ production services**.

Cloud Security, Compliance & Cost Optimisation Programme (HCL Technologies)

- Led security control implementation and compliance reviews across **Azure infrastructure** environments; conducted vulnerability assessments and security best-practices audits for identity, networking, data protection, and regulatory alignment with enterprise audit and compliance frameworks.
- Executed cloud cost optimisation initiatives through **Azure Reserved Instances** procurement, resource tagging governance, and consumption analysis; delivered **35% reduction in cloud operational expense** over 12 months through rightsizing and wastage elimination.
- Managed **change management** processes for infrastructure updates, security patches, and configuration changes; coordinated **15+ infrastructure transformation projects** with cross-functional teams including enterprise architects, operations, and compliance; supported post-implementation validation and continuous improvement cycles.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
