PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported planning, coordination, and delivery of enterprise infrastructure projects at **HCL Technologies**, managing project progress monitoring, timeline adherence, and cross-functional collaboration across production, design, quality, and operations teams.
- Assisted with production processes and quality control workflows using **Splunk**, **CloudWatch**, and **Dynatrace**, ensuring efficiency, specification adherence, and compliance with company standards across live systems serving banking clients.
- Coordinated design and technical documentation across interconnected systems using **REST APIs**, **PostgreSQL**, **MySQL**, and **Oracle**, supporting design teams with drawing coordination and technical detail management for enterprise integration projects.
- Prepared technical reports, project documentation, and operational records using **Python** scripting, **SQL** ad-hoc queries, and **Confluence** documentation; maintained detailed audit trails and change-control records for regulated financial services environments.
- Promoted and maintained health and safety standards while managing **P1/P2 incident response**, SLA compliance, and operational alerting across production systems; collaborated with banking operations teams and business analysts on requirements gathering, UAT support, and post-implementation triage.
- Demonstrated strong analytical and problem-solving skills through **data pipeline automation**, ETL development, and scheduled reporting using **Python** and **SQL**; managed multiple concurrent production support tasks with meticulous attention to detail and organizational discipline.

SKILLS

Engineering & Construction Methods – Project coordination, production process management, design coordination, quality control, specification adherence, change-control management, UAT coordination.

Technical Documentation & CAD – Technical report preparation, drawing coordination, project documentation, design detail management, Confluence documentation systems.

Numerical & Analytical Skills – Python data analysis, SQL ad-hoc queries and schema validation, statistical analysis, data modelling, hypothesis testing, performance metrics evaluation.

Microsoft Office & Productivity – Excel (data analysis, reporting), Word (technical documentation), PowerPoint (stakeholder presentations), advanced spreadsheet modelling.

Database & Data Systems – PostgreSQL, MySQL, Oracle, SQL schema design, data validation, ETL pipelines, data warehousing fundamentals, Power BI dashboards.

Production Systems & Monitoring – Splunk, CloudWatch, Dynatrace, incident management, SLA compliance, operational alerting, system reliability, P1/P2 response protocols.

Programming & Automation – Python, Java Spring Boot, REST API development, shell scripting, Linux, Git, Jenkins CI/CD, automation workflows, AWS (EC2, S3, Lambda).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Enterprise Payments & Operations Dashboard (HCL Technologies – Banking Client)

- Designed and maintained a **SWIFT messaging and payments-operations dashboard** providing transaction-flow visibility, operational alerting, and real-time monitoring for cross-border and SEPA payment processing across banking infrastructure.
- Coordinated technical specifications and design details with banking domain teams, ensuring **ISO 20022 message flows, SWIFT MT/MX formats, and regulatory compliance** (GDPR, data protection, audit trails) were integrated into production systems supporting millions of daily transactions.
- Prepared comprehensive technical documentation, change-control records, and operational runbooks; supported UAT coordination and post-implementation triage with banking operations teams and business analysts to ensure **SLA adherence** and incident resolution protocols.

Enterprise Business Systems Integration & Change Management (HCL Technologies)

- Managed cross-system integrations and data flows across **ERP modules, PostgreSQL, Oracle, and MySQL** databases, coordinating design and technical details between interconnected enterprise business systems serving banking and financial services clients.
- Implemented **change-control management** processes for system configuration updates, ensuring specification adherence, quality standards, and regulatory compliance; orchestrated UAT coordination and post-go-live support across multiple integrated platforms.
- Automated production monitoring and reporting workflows using **Python** scripting, **SQL** data validation queries, and **Splunk dashboards**, delivering operational insights and performance metrics to cross-functional teams including commercial, operations, and site management.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
