PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided first-level technical support and incident triage across enterprise environments, resolving **P1/P2 incidents** in compliance with established **SLAs** and service desk best practices, achieving **95%+ resolution rates** for hardware, software, and connectivity issues.
- Supported device enrolment, setup, and troubleshooting using **Mosyle MDM** and **Jamf** platforms; managed user access requests including onboarding, role changes, and offboarding workflows with full documentation in ticketing systems.
- Monitored Service Desk ticket queues and responded to user requests via **chat, email, phone, and in-person support**; routed escalations to appropriate teams and tracked ownership through resolution, ensuring clear user communication and timely follow-up on open issues.
- Troubleshoot and documented common **macOS and Apple hardware** issues in a **Mac-only environment**, including Mac laptops, desktops, peripherals, printers, and connectivity; used knowledge resources to research and provide accurate technical guidance with temporary workarounds where applicable.
- Supported user access management and account administration, including **Microsoft 365 provisioning**, application access grants, and secure information handling in compliance with company confidentiality policies and applicable data protection regulations.
- Prepared activity updates, basic reporting, and contributed to team projects and service improvement initiatives; maintained knowledge of system changes, standard procedures, and knowledge base updates to deliver excellent customer service and positive end-user experience.

SKILLS

IT Support & Service Desk – Service Desk ticket management, incident triage and resolution, SLA compliance, first-level technical support, escalation procedures, user documentation.

macOS & Apple Ecosystem – macOS troubleshooting, Mac laptops and desktops, Apple hardware, peripheral and printer support, Apple device management.

Device Management & MDM – Mosyle MDM, Jamf, device enrolment, device setup, MDM troubleshooting and administration.

End-User Computing – Microsoft 365, standard workplace applications, connectivity support, user onboarding and offboarding, access management.

Customer Service & Documentation – Service desk communication, user guides and knowledge base updates, incident documentation, activity reporting, cross-team collaboration.

Technical Proficiency – Hardware troubleshooting, software support, network connectivity, basic system administration, regulatory compliance and data protection awareness.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Banking Payments Operations Dashboard & Production Support (HCL Technologies, 2021–2025)

- Provided continuous production support and monitoring for **SWIFT messaging** and payments-operations platform serving enterprise banking client; managed **P1/P2 incident response**, transaction-flow visibility, and operational alerting across **SLA-critical** payment environments.
- Supported user access provisioning, account onboarding, and role-based access management for banking operations teams; maintained strict **regulatory compliance** and **audit trail documentation** in accordance with **GDPR**, data protection, and financial services governance standards.
- Collaborated cross-functionally with banking-domain business analysts and operations teams to triage post-implementation issues, provide UAT support, and escalate urgent incidents; documented all troubleshooting steps and resolutions in service desk ticketing systems with **95%+ first-contact resolution**.

Enterprise System Integration & Technical Onboarding (HCL Technologies, 2021–2025)

- Supported user onboarding and account provisioning across interconnected enterprise systems, including **ERP modules**, banking platforms, and operational applications; managed access requests, role assignments, and offboarding workflows with full compliance to change-control and access management procedures.
- Troubleshoot cross-system integration issues involving **REST API endpoints** and database-level data flows across **PostgreSQL, Oracle, and MySQL** environments; escalated technical issues to development teams and tracked resolution through service desk ticketing with clear user communication.
- Prepared activity reports, system change documentation, and user guides for banking client teams; maintained knowledge base updates and participated in post-go-live support initiatives to ensure positive end-user experience and service quality across enterprise platforms.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
