PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed, developed, and implemented **survey solutions** in **Qualtrics** for cross-functional stakeholders; analyzed survey data using **Power BI** and **Tableau** to create comprehensive dashboards and reports driving business decisions, improving data-driven decision-making velocity by **40%**.
- Managed and optimized **Qualtrics platform** performance and utilization across enterprise teams; ensured data quality and integrity throughout survey design and collection processes; provided training and support to internal users on **Qualtrics platform usage** and best practices via documentation and hands-on sessions.
- Analyzed survey data and translated complex findings into actionable insights using **statistical analysis**, **hypothesis testing**, and **regression modelling** in **R** and **Python**; presented results to senior stakeholders across **12+ business units**, enabling strategic pivots valued at **€2.3M** operational efficiency gains.
- Integrated **Qualtrics** with enterprise business systems via **REST APIs** and database connectors; orchestrated system integrations connecting **Qualtrics** to **PostgreSQL**, **Oracle**, and **MySQL** data warehouses; managed change-control workflows and **UAT coordination** across interconnected platforms.
- Developed and implemented strategies to increase survey response rates by **35%** and optimize data quality through survey methodology refinement, incentive design, and multi-channel distribution; applied **A/B testing** and time-series analysis to validate effectiveness.
- Stayed current with **Qualtrics platform updates** and emerging best practices; managed multiple survey and analytics projects simultaneously in fast-paced environments; demonstrated strong project management, organizational skills, and adaptability to evolving technology requirements; coordinated cross-functional team efforts with BAs and operations teams for requirements gathering and post-implementation support.

SKILLS

Qualtrics & Survey Platforms – Qualtrics platform management, survey design and methodology, survey data collection and analysis, response rate optimization, survey administration.

Data Analysis & Visualization – Power BI, Tableau, Excel, data modelling, DAX measures, Power Query, interactive dashboards, comprehensive reporting.

Programming & Statistical Methods – Python, R, SQL, statistical analysis, hypothesis testing, regression analysis, A/B testing, exploratory data analysis, scikit-learn.

Data Warehousing & ETL – data warehousing architecture, ETL processes, data pipelines, PostgreSQL, Oracle, MySQL, pandas, NumPy.

System Integration & APIs – REST API integration, API design patterns, web technologies, system interconnectivity, change management.

Project Management & Collaboration – cross-functional team coordination, project management, stakeholder communication, training and user support, Jira, Confluence.

Business Acumen – financial services domain knowledge, business requirements translation, data-driven decision-making, operational metrics, regulatory compliance awareness.

EDUCATION AND TRAINING

PROJECTS

Enterprise Experience Management Platform & Survey Analytics Dashboard (HCL Technologies)

- Architected and deployed centralized **Qualtrics experience management platform** for **8 business units** across financial services and operations domains; designed **15+ interactive survey instruments** covering customer experience, employee engagement, and operational feedback with branching logic, matrix questions, and conditional scoring.
- Built comprehensive **Power BI analytics dashboard** integrating **Qualtrics survey data** with enterprise data warehouse (**PostgreSQL / Oracle**); developed **DAX measures** and **Power Query transformations** to calculate NPS trends, response-rate KPIs, and demographic segmentation; published interactive reports accessed by **120+ stakeholders** weekly.
- Implemented **Qualtrics-to-ERP system integration** via **REST APIs** and scheduled data pipelines; automated survey data export and reconciliation against transaction systems; reduced manual data reconciliation effort by **25 hours per month** while improving data accuracy to **99.8%**.
- Conducted advanced **statistical analysis** on survey responses using **R and Python (scikit-learn, pandas)**; performed regression modelling to identify key drivers of satisfaction; executed **A/B testing** on survey question phrasings, improving response completion rates by **38%** and data quality scores by **22%**.
- Developed **survey response-rate optimization strategy** through multi-channel distribution, incentive testing, and reminder-scheduling automation in **Qualtrics**; trained **45+ internal users** on platform capabilities, survey design best practices, and dashboard interpretation via documentation and hands-on workshops; achieved sustained survey response rates of **68%** versus industry baseline of **42%**.

SWIFT Payments Operations Dashboard & Data Quality Initiative (HCL Technologies)

- Designed and maintained **Qualtrics-based operational feedback surveys** for payments operations teams processing **SWIFT messaging (MT/MX)** and **ISO 20022** transactions; collected qualitative insights on data quality pain points and integration gaps; translated feedback into actionable data-quality recommendations.
- Analyzed survey data from payments operations staff to identify bottlenecks in **cross-border payments** and **SEPA instant payments** workflows; created **Tableau dashboards** visualizing operational metrics (processing time, error rates, SLA compliance); reduced transaction-flow visibility gaps by **60%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
