PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed full-stack **Cloud SaaS applications** using **Java Spring Boot**, **REST APIs**, and **React** frontend components across **AWS** infrastructure (EC2, S3, Lambda); shipped 40+ features to production while maintaining **99.5% application uptime** through proactive monitoring and incident response.
- Integrated **AI coding assistants** and automated validation workflows into **CI/CD pipelines** via **Jenkins** to accelerate development velocity; automated unit testing, code review gates, and documentation generation, reducing PR-to-merge cycle time by **35%** and enabling high-velocity output across distributed team.
- Partnered with Product Managers on rapid prototyping and requirements discovery using **AI-augmented product development** methodologies; translated ambitious infrastructure concepts into testable, deliverable increments with measurable user value, shipped in **2-week sprints** within Agile/Scrum governance.
- Architected and maintained robust **full-stack software solutions** with **Node.js**, **C#/.NET Core**, and **Angular** components; deployed across **cloud SaaS infrastructure** with **Docker** containerisation and **Git** branching strategies, achieving **98% deployment success rate** with zero production rollbacks.
- Leveraged **advanced coding assistants** (GitHub Copilot equivalent tools) and **AI agents** to accelerate journey from idea to production-ready PR, including comprehensive documentation generation and unit testing coverage; reduced manual code authoring by **40%** while maintaining code quality and regulatory compliance standards.
- Managed **change-control processes** and **UAT coordination** for enterprise system integrations across interconnected infrastructure platforms; collaborated cross-functionally with technical and non-technical stakeholders to validate functionality, ensure audit trail integrity, and maintain compliance in production environments supporting critical digital backbone for global infrastructure operations.

SKILLS

Programming Languages & Frameworks – Java Spring Boot, C#/.NET Core, Node.js, Python, React, Angular.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD (Jenkins), Git.

AI-Augmented Development – GitHub Copilot, AI coding assistants, AI agents for CI/CD automation, rapid prototyping with AI tooling.

Full-Stack Development – REST APIs, microservices architecture, cloud SaaS applications, unit testing, automated validation.

Database & Data Engineering – PostgreSQL, MySQL, Oracle, SQL, data pipelines, ETL, schema design.

DevOps & Reliability – Production monitoring (Splunk, Dynatrace, CloudWatch), SLA management, P1/P2 incident response, change management, UAT coordination.

Product & Business Skills – Product-minded engineering, requirements discovery, Agile/Scrum, Jira, Confluence, cross-functional collaboration.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

AI-Augmented Cloud SaaS Development Platform for Infrastructure Lifecycle Management (HCL Technologies)

- Designed and deployed a **full-stack Cloud SaaS application** on AWS (EC2, S3, Lambda) using **Java Spring Boot** backend, **Node.js** microservices layer, and **React** frontend to modernize the development lifecycle for infrastructure project planning; integrated **AI coding assistants** and **AI agents** into **Jenkins CI/CD pipelines** to automate unit test generation, documentation, and code review tasks.
- Implemented **AI-augmented product development** workflows enabling Product Managers to leverage generative tooling for rapid requirements discovery and prototyping; reduced idea-to-PR cycle time by **45%** while maintaining enterprise-grade code quality, achieving **96% automated test coverage** across 120+ production microservices.
- Built robust **full-stack validation and testing automation** using **AI agents** to execute regression testing, performance benchmarking, and user acceptance workflows; deployed 8 major feature releases across **high-velocity sprint cycles**, with zero critical production incidents and **99.7% uptime** SLA compliance.
- Architected **Docker containerisation** strategy and **Git branching governance** supporting 40+ engineers across distributed teams; integrated **advanced AI coding assistants** into developer workflows, reducing repetitive engineering tasks by **50%** and accelerating feature delivery to government and infrastructure sector customers.

Enterprise SaaS Application Modernization with AI-Assisted Development (HCL Technologies – Banking & Infrastructure Domain)

- Led **full-stack software development** modernization initiative using **C#/.NET Core**, **Angular** frontend, and **REST API** integrations across **cloud infrastructure**; partnered with Product and Operations teams to embed **AI coding assistants** into development velocity metrics, delivering 35+ production features in **12-month delivery cycle**.
- Implemented **change-control management** and **UAT coordination** processes for enterprise system updates; ensured regulatory compliance and audit trail integrity across mission-critical infrastructure platforms, with **100% successful post-go-live support** and zero compliance deviations.
- Optimized **CI/CD pipeline automation** using **Jenkins** and **AI agent integration** to reduce deployment friction; automated unit testing, documentation generation, and repetitive engineering tasks, achieving **35% reduction** in manual QA effort and enabling **biweekly release cadence** supporting product-minded velocity targets.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
