PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Maintained portfolio of structured finance deals including **ABS, RMBS, and CMBS transactions** with **100% accuracy** in ledger reconciliation, balance sheet maintenance, and transaction-level detail tracking across **PostgreSQL and Oracle** databases.
- Performed **daily cash flow reporting** and **cash position reconciliation** to Treasury across multiple deal portfolios, ensuring **zero settlement discrepancies** through **SQL data validation** and automated reconciliation workflows using **Python**.
- Managed **investor report validation** and **servicer data collection** for structured finance transactions, building **Power BI dashboards** to track **invoice collection, interest payment dates (IPD), and loan collections** with **95% first-pass accuracy**.
- Resolved complex **transactional and deal-related issues** by interpreting transaction documents, legal clauses, and deal-specific cash movement requirements; coordinated with operations and external parties to implement new transactions with **zero post-go-live delays**.
- Established effective cross-functional relationships with banking operations, compliance, and Treasury teams; provided technical liaison support for **new deal setup, collateral administration, and custodial account management** across interconnected enterprise systems.
- Authored detailed transaction setup documentation and operational runbooks for **ABS/RMBS/CMBS workflows**, including cash management procedures, payment instruction protocols, and reconciliation methodologies; trained operations teams on deal-specific requirements and SLA compliance.

SKILLS

Structured Finance & Capital Markets – ABS transactions, RMBS transactions, CMBS transactions, loan servicing, cash management, collateral administration, trustee services, paying agent services, facility agent services.

Financial Operations & Reconciliation – ledger maintenance, balance sheet reconciliation, transaction reconciliation, interest payment date (IPD) reconciliation, cash position reporting, invoice collection, loan collection, settlement management.

Data Analytics & Business Intelligence – Power BI dashboards, Tableau visualizations, data validation, SQL query development, ETL pipeline orchestration, investor reporting, servicer data collection and analysis.

Banking & Financial Systems – enterprise ERP platforms, custodial systems, cash management systems, transaction processing systems, cross-system integrations, payments processing, regulatory compliance, GDPR, audit trail management.

Technical Skills – Python, SQL (PostgreSQL, Oracle, MySQL), REST APIs, data warehouse design, Jenkins CI/CD, Git, Docker, AWS (EC2, S3, Lambda, CloudWatch), Linux, shell scripting.

Deal Management & Documentation – transaction setup and maintenance, deal documentation interpretation, cash flow modeling, operational runbooks, change control management, UAT coordination, post-implementation support.

Stakeholder & Relationship Management – cross-functional collaboration, external party liaison, client focal point responsibilities, operations coordination, Treasury reporting, compliance alignment.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India

01/2021

PROJECTS

Structured Finance Portfolio Management & Reconciliation System (HCL Technologies)

- Designed and deployed an integrated **deal portfolio tracking system** for a banking client's structured finance operations, consolidating **ABS, RMBS, and CMBS transaction data** across **PostgreSQL** ledgers and reconciliation tables.
- Built automated **cash flow reconciliation workflows** using **Python ETL pipelines** to validate **interest payment dates, loan collections, and invoice collections** against servicer submissions, reducing manual reconciliation time by **40%** and achieving **99.8% accuracy** in daily Treasury cash position reporting.
- Developed **Power BI dashboards** for investor reporting and operational monitoring, visualizing portfolio performance, deal-level transaction flows, and SLA compliance metrics; published interactive reports consumed by Treasury and senior management stakeholders weekly.

Transaction Lifecycle Management & Deal Documentation Repository (HCL Technologies)

- Established a centralized **deal documentation repository** and transaction setup runbook library for structured finance operations, codifying cash management procedures, collateral administration workflows, and **trustee/paying agent service** protocols for **25+ concurrent transactions**.
- Interpreted complex **transaction documents, legal agreements, and deal-specific cash movement requirements** to configure new ABS/RMBS/CMBS deals; coordinated cross-functional setup with operations and external parties, ensuring **zero configuration errors** on new transaction launches.
- Automated transaction setup validation using **SQL data integrity checks** and **Python scripts**, reducing deal setup cycle time by **30%** and enabling rapid post-go-live triage and issue resolution for the structured finance team.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
