HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production support for enterprise applications, responding to P1/P2 incidents and ensuring adherence to SLAs across **Splunk** and **CloudWatch** monitoring environments.
- Developed Python scripts to automate data extraction and transformation tasks, improving the efficiency of scheduled reporting processes by approximately **20%**.
- Executed complex SQL queries across **PostgreSQL** and **Oracle** databases for data validation and ad-hoc analysis, supporting critical business operations.
- Designed and implemented Java Spring Boot REST APIs for internal services, facilitating seamless data exchange between interconnected systems.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, enhancing deployment consistency and portability.
- Collaborated with multi-disciplinary teams to define scopes and interfaces for HV substation design, ensuring coordinated delivery of grid-scale power infrastructure.
- Applied lifecycle expertise in grid connection studies and concept design through FEED and detailed design for HV substation schemes, meeting power density and availability requirements.

SKILLS

Cloud Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Backend Development – Java, Spring Boot, REST APIs, Microservices, Hibernate, JPA, JUnit, Maven

Databases – SQL, PostgreSQL, MySQL, Oracle

Scripting & Automation – Python, Shell Scripting, Jenkins, Git

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Project Management & Support – Agile/Scrum, Jira, Confluence, Change Management, Incident Response

PROJECTS

Enterprise Application Modernization (HCL Technologies)

- Modernized legacy Java applications by refactoring monolithic structures into microservices using **Spring Boot** and **Hibernate**, improving maintainability and scalability.
- Developed and maintained robust REST APIs for inter-service communication, ensuring efficient data flow and integration with downstream systems.
- Implemented comprehensive unit and integration tests using **JUnit** and **Mockito**, achieving over **85%** code coverage for critical service modules.

Industrial Control System Integration (HCL Technologies)

- Engineered Python-based data pipelines to ingest and process real-time sensor data from industrial control systems, enabling enhanced operational monitoring.
- Integrated disparate control systems via custom-built interfaces and **REST APIs**, consolidating data streams for centralized analysis and reporting.
- Automated routine system checks and log analysis using **Linux** shell scripts, reducing manual intervention by approximately **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
