HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot applications**, delivering new features and resolving defects in a production environment.
- Engineered **Python scripts** for data pipeline automation, reducing manual data processing tasks by an estimated **40%**.
- Managed incident response and performed root cause analysis for P1/P2 incidents on enterprise applications, ensuring adherence to SLAs using **Splunk** and **Dynatrace**.
- Collaborated with cross-functional teams to gather requirements and support User Acceptance Testing (UAT) for enterprise system integrations.
- Designed and implemented **REST APIs** for seamless data exchange between disparate enterprise systems, ensuring data integrity across PostgreSQL and Oracle databases.
- Containerized multiple Java applications using **Docker** for consistent deployment across development, staging, and production environments.
- Contributed to water quality studies by developing **Python scripts** to process and analyze sensor data, identifying trends in pollutant levels.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools/Platforms – Splunk, Dynatrace, Jira, Confluence

Data Analytics/BI – Power BI, Tableau, DAX, Power Query, Data Modelling

PROJECTS

Enterprise Data Integration Platform

- Developed a **Java Spring Boot** microservice to integrate data from multiple enterprise systems, including ERP modules and operational platforms.
- Implemented asynchronous data processing using **Kafka**, ensuring reliable message delivery and decoupling of services for increased system resilience.
- Designed and built RESTful APIs for external system consumption, defining clear contracts and ensuring robust error handling for over **5,000 daily requests**.

Environmental Data Analysis Suite

- Created a suite of **Python scripts** to ingest, clean, and analyze environmental sensor data, supporting water quality studies.
- Developed **Power BI dashboards** to visualize key environmental metrics, including pollutant concentrations and flow rates, for stakeholder review.
- Applied statistical methods using **R** to identify correlations between different environmental factors and potential sources of pollution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
