HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and built **Python** automation scripts to streamline data ingestion and reporting processes for enterprise systems, reducing manual effort by approximately **40%**.
- Developed and maintained **Java Spring Boot** REST APIs for cross-service data exchange, implementing robust error handling and asynchronous processing patterns.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, performing root cause analysis and implementing corrective actions to meet strict SLAs.
- Contributed to the design and implementation of scalable system architectures for enterprise collaboration platforms, focusing on reliability and operational efficiency using **AWS** services.
- Built automation tooling in **Python** to simplify operational tasks, reducing manual intervention in deployment and configuration management by an estimated **30%**.
- Partnered with cross-functional engineering teams to integrate collaboration services with cloud infrastructure and identity management platforms, ensuring seamless user experience.
- Containerized Java applications using **Docker** and managed deployments to **AWS EC2** instances, improving consistency and reducing environment setup time for new services.

SKILLS

Languages – Python, Java, SQL, Shell Scripting

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Kubernetes, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, R/RStudio

Methodologies – Agile, Scrum, DevOps

PROJECTS

Enterprise Systems Data Integration Platform

- Engineered a **Python**-based data pipeline to aggregate and transform data from disparate enterprise systems, including ERP modules and operational platforms.
- Developed **REST APIs** using **Flask** to expose processed data for consumption by internal dashboards and downstream applications, facilitating cross-system integration.
- Implemented automated data validation checks and scheduled reporting mechanisms using **cron jobs** and shell scripting, ensuring data integrity for over **15** distinct reports.

Internal Collaboration Tooling Automation

- Built a suite of **Python** automation scripts to manage user access and permissions across internal collaboration platforms, simplifying onboarding for new team members.
- Integrated with platform APIs to automate configuration updates and policy enforcement, reducing manual administration overhead for the IT operations team.
- Developed a simple web interface using **FastAPI** for non-technical users to request and manage access to shared resources, improving efficiency for **~20** daily requests.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
