HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices for backend systems, integrating with **PostgreSQL** databases and exposing RESTful APIs.
- Developed and maintained **JPA** entities and data access objects for complex relational data models, ensuring data integrity and efficient querying.
- Authored **JUnit** and **Mockito** tests to achieve over 90% code coverage for critical Java components, improving application stability.
- Collaborated with Network Engineering teams to define requirements and integrate new software services for production network deployments, ensuring smooth rollouts across multiple data centers.
- Developed Python scripts to automate data collection from various sources, consolidating information for operational reporting and workload reduction initiatives.
- Mentored junior engineers on best practices for code reviews, debugging, and effective participation in **Agile** ceremonies, fostering team growth.
- Containerized backend services using **Docker** and deployed them to an **AWS** environment, managing configurations and basic resource allocation.

SKILLS

Languages – Java, Python, SQL, Linux Shell Scripting

Frameworks & Libraries – Spring Boot, Spring Data JPA, Hibernate, JUnit, Mockito, pandas, NumPy, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Monitoring – Splunk, Dynatrace, Jira, Confluence

Networking Concepts – Network Automation, Distributed Systems, Cloud Networking, IP Allocation, Network Scaling

PROJECTS

Automated Network Configuration Service (HCL Technologies)

- Developed a **Python** service to automate the generation and deployment of network device configurations based on templates and environment variables, reducing manual effort by an estimated 40%.
- Implemented a **REST API** using **Flask** to allow other internal systems to request and receive network configuration updates, integrating with a **PostgreSQL** database for storing device states.
- Wrote unit and integration tests for the service, ensuring reliability in handling diverse network device profiles and reducing deployment errors.

Distributed System Monitoring & Alerting (HCL Technologies)

- Built backend services in **Java Spring Boot** to ingest and process monitoring data from distributed systems, enabling real-time operational awareness.
- Integrated with **Splunk** and **CloudWatch** APIs to aggregate log data and system metrics, creating unified views for incident triage.
- Designed and implemented alerting logic based on predefined thresholds and anomaly detection patterns, reducing mean time to detect critical issues by approximately 20% across monitored services.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
