PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented a **Skills Base system** for the engineering group, streamlining new graduate training coordination and adherence tracking.
- Coordinated the **rollout of a new training system** across the engineering department, ensuring consistent knowledge transfer and documentation.
- Managed the **application process for training grants**, accurately documenting participation and compliance for financial reimbursement.
- Applied **data-driven analysis** to engineering processes, using scientific theory and engineering concepts to identify areas for improvement.
- Developed and maintained comprehensive **documentation for training modules** and system processes, supporting continuous learning and operational consistency.
- Collaborated with cross-functional teams to coordinate **engineering team training schedules** and requirements, ensuring alignment with project goals.
- Containerized internal training support tools using **Docker** and deployed them to an **AWS EC2** instance, enabling scalable access for engineers.

SKILLS

Process Engineering – Skills Base system, Training coordination, Documentation adherence, Grant application, Semiconductor manufacturing

Data Analytics – Data-driven analysis, Scientific theory application, Engineering concepts

Software Development – Java, Spring Boot, Python, SQL, REST APIs, Docker, AWS (EC2, S3, Lambda, CloudWatch)

Data Visualization – Power BI, Tableau, DAX, Power Query

Methodologies – Agile, Scrum, Change Management

PROJECTS

Engineering Training Platform Development

- Developed a centralized **Skills Base system** using Java Spring Boot to manage and track training progress for new engineering hires.
- Integrated with an internal HR system via **REST APIs** to automatically update employee training records and certifications.
- Created automated reports in **Python** detailing training completion rates and compliance metrics for management review.

Process Documentation and Automation Initiative

- Designed and documented standardized operating procedures for critical manufacturing processes using Confluence, improving knowledge sharing for a team of **15+ engineers**.
- Scripted **Python** automation for data collection from manufacturing logs, reducing manual data entry time by approximately **40%**.
- Built interactive **Power BI dashboards** to visualize process performance metrics and track adherence to documented procedures.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
