HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed **Python**-based intelligent agent workflows using **LangGraph** and **LangChain** for a new enterprise AI platform, processing over **4,000** requests per hour.
- Engineered **RAG** solutions to integrate and query large-scale enterprise datasets, enabling AI agents to access and act upon relevant business information.
- Designed and implemented **Python** REST APIs with **FastAPI** for orchestrating agent behaviour and facilitating communication between distributed AI components.
- Contributed to the development of **MCP-based tools** and services, ensuring seamless integration into existing enterprise technology stacks.
- Collaborated with AI and engineering teams to refine and iterate on AI solutions, moving successful concepts from experimentation to production-ready applications.
- Wrote production-ready code in **Python**, adhering to software engineering best practices for building scalable and reliable applications.
- Containerized AI agent services using **Docker** and deployed them to a Kubernetes cluster, managing configurations and ensuring predictable rollouts.

SKILLS

AI / Agentic AI – Intelligent Agents, Agentic Workflows, RAG, LangGraph, LangChain, MCP

Programming Languages – Python, C#

Cloud & DevOps – AWS, Docker, Kubernetes, CI/CD, Jenkins

Databases – PostgreSQL, MySQL, Oracle

Frameworks & Libraries – FastAPI, Spring Boot, pandas, NumPy, scikit-learn

Methodologies – Agile, Scrum

PROJECTS

AI Agent Orchestration Platform (HCL Technologies)

- Developed a core orchestration service in **Python** using **LangChain** to manage multi-agent communication and workflow execution for a new AI platform.
- Implemented **RAG** capabilities to enable agents to query and retrieve information from internal document repositories, improving response accuracy by an estimated **30%**.
- Containerized the agent services using **Docker** and configured deployment pipelines in **Jenkins** for automated testing and integration.

Enterprise Data Integration for AI Services (HCL Technologies)

- Built **Python** data pipelines to extract, transform, and load data from various enterprise systems (PostgreSQL, Oracle) into a format suitable for AI model consumption.
- Designed and implemented RESTful APIs using **FastAPI** to serve processed data to downstream AI applications, handling approximately **1,500** requests daily.
- Collaborated with business analysts to gather requirements for data accessibility, ensuring the pipelines met operational reporting needs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
