PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Served as the primary technical contact for **three enterprise accounts**, gathering detailed requirements for **SaaS application integrations** directly from customer engineering teams.
- Managed the full lifecycle of **product support cases** for designated customers, including initial triage, in-depth troubleshooting, and resolution coordination with internal engineering teams.
- Contributed to the **internal knowledge base** by documenting solutions and troubleshooting steps for common SaaS platform issues, improving team response times by an estimated **15%**.
- Provided **live, scheduled video support** to customers upon request, focusing on complex feature configuration and best practice guidance to accelerate adoption.
- Collaborated with **Customer Success Managers** to align on account strategies, proactively identifying potential risks and escalating critical issues to management.
- Proactively identified and documented **product bugs** with clear reproduction steps, contributing insights on case volumes and trends to the Product team.
- Developed **Python scripts** to automate data validation and reporting for customer onboarding processes, reducing manual effort by approximately **20%**.

SKILLS

Customer Support & Success – Technical Support, Case Management, Customer Relationship Management, SLA Management, Customer Satisfaction, Account Management, Proactive Support, Product Expertise, Knowledge Base Management

Technical Troubleshooting – SaaS Issues, API Integrations, Authentication (SSO/SAML), Browser Behavior, User Access Management, Root Cause Analysis, Debugging

Programming & Scripting – Python, Java, Spring Boot, SQL, Shell Scripting

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Data & Analytics Tools – Power BI, Tableau, DAX, Power Query, Splunk, Dynatrace

PROJECTS

Customer Onboarding Automation for SaaS Platform

- Developed a **Python-based CLI tool** to automate the validation of customer configuration files against platform schemas, catching ~60% of common setup errors before deployment.
- Built a series of **interactive Power BI dashboards** to visualize customer onboarding progress, adoption metrics, and common integration pain points for internal stakeholders.
- Authored comprehensive **onboarding guides and runbooks** for common integration patterns, enabling customer self-service and reducing reliance on direct support intervention.

Enterprise Application Support Enhancement

- Engineered **Java Spring Boot microservices** to provide enhanced monitoring endpoints for critical enterprise applications, integrating with existing **Splunk** dashboards for operational visibility.
- Automated the generation of **daily operational reports** using Python scripts parsing logs from application instances on AWS EC2, delivering key performance indicators to operations teams.
- Implemented comprehensive logging and error handling in Java applications, improving the ability to perform **root cause analysis** for P1/P2 incidents.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
