HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Installed and configured complex **electronic assembly equipment** across a semiconductor manufacturing facility, performing initial diagnostics and functional testing to ensure operational readiness.
- Provided **remote technical consultation and on-site emergency response** for equipment malfunctions, diagnosing issues and guiding resolution steps to minimize production downtime.
- Developed and managed a local **maintenance service structure**, including preventative maintenance schedules and spare parts inventory, to ensure consistent equipment uptime and performance.
- Performed detailed inspections of installed **vision and inspection systems**, evaluating usage patterns and delivering hands-on training to site technicians on proper operation and basic maintenance procedures.
- Liaised with **applications programmers** to coordinate and implement software updates and configuration changes on vision systems, ensuring seamless integration with manufacturing processes.
- Submitted comprehensive **application reports, service reports, and weekly progress updates** to management, detailing findings, actions taken, and recommendations for product improvement based on market needs.
- Participated in **technical training sessions** with engineers from Japanese headquarters, absorbing knowledge on advanced product applications and technical troubleshooting for complex equipment issues.

SKILLS

Hardware & Equipment – Electronic Assembly Equipment Installation, Vision Systems, Inspection Systems, Diagnostic Equipment, Test Fixtures

Software & Operating Systems – Windows OS, MS Office Suite

Engineering & Technical Skills – Preventative Maintenance, Troubleshooting, Technical Consultation, Application Reporting, Service Reporting, Product Training

Soft Skills – Time Management, Decision-Making, Exceptional Listening, Problem Solving, Communication

Domain – Semiconductor Manufacturing Equipment, Process Systems

PROJECTS

Site-Based Field Service Engineering for Semiconductor Facility

- Supported the installation and qualification of high-spec **vision and process equipment** within a new semiconductor manufacturing plant, ensuring adherence to site readiness protocols.
- Responded to and resolved complex technical issues on **electronic assembly equipment**, coordinating with global engineering teams for advanced diagnostics and solutions.
- Established and documented operational procedures for field service engineers, contributing to a standardized approach for equipment maintenance and repair.

Electronic Equipment Maintenance and Training Initiative

- Developed and delivered training modules on the maintenance and operation of **precision electronic equipment** to a team of newly hired field service engineers.
- Managed the inventory and deployment of specialized **electronic diagnostic equipment** required for on-site troubleshooting and preventative maintenance tasks.
- Compiled detailed service reports and usage analysis for management, identifying trends and recommending optimizations for product support strategies.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
