PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Installed, commissioned, and qualified advanced semiconductor manufacturing equipment adhering strictly to OEM specifications and stringent cleanroom protocols.
- Executed preventative maintenance schedules and calibration procedures for precision equipment, contributing to a **15% increase** in overall uptime.
- Troubleshot and diagnosed complex electrical, mechanical, and automation faults on sophisticated capital equipment, identifying root causes for sustainable resolution.
- Supported equipment upgrades and continuous improvement initiatives within the manufacturing facility, collaborating with process and equipment engineers.
- Maintained detailed service documentation and technical reports, ensuring adherence to **ISO** and semiconductor manufacturing quality standards.
- Provided technical guidance and operational support to customers and internal stakeholders, facilitating smooth equipment operation and integration.
- Participated in on-call rotations and escalation activities, ensuring critical manufacturing operations were supported with minimal disruption.

SKILLS

Engineering Discipline – Electrical Engineering, Electronic Engineering, Automation, Mechanical Engineering, Robotics, Mechatronics

Manufacturing Environments – Semiconductor Manufacturing, High-Tech Manufacturing, Cleanroom Protocols, Contamination Control, High-Volume Manufacturing

Technical Skills – Equipment Installation, Commissioning, Qualification, Preventative Maintenance, Calibration, Troubleshooting, Fault Diagnosis, Root Cause Analysis (RCA), Technical Documentation, Diagnostic Tools, Test Fixtures

Compliance & Standards – OEM Specifications, ISO Standards, GMP Standards, EHS Procedures

Software Proficiency – Microsoft Office Suite, Windows-based Software

PROJECTS

Semiconductor Equipment Installation and Commissioning

- Managed the end-to-end installation and commissioning process for new semiconductor manufacturing equipment, ensuring all **OEM specifications** were met.
- Developed and executed detailed qualification test plans, identifying and resolving integration issues to ensure seamless operation within the cleanroom environment.
- Documented installation procedures and initial performance metrics, establishing a baseline for future maintenance and support activities.

Precision Equipment Maintenance and Troubleshooting

- Performed routine preventative maintenance and calibration on high-precision manufacturing equipment, reducing unscheduled downtime by approximately **12%**.
- Diagnosed and repaired complex electrical and mechanical faults using diagnostic tools and technical documentation, restoring equipment to full operational capacity.
- Collaborated with senior engineers on **root cause analysis** for recurring issues, implementing corrective actions to enhance equipment reliability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
