PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered and analysed business requirements from project stakeholders, translating them into detailed user stories with clear quality criteria for a new enterprise reporting system.
- Created comprehensive project documentation, including Data Dictionaries and API Guides, to support the development lifecycle and ensure clarity for all relevant parties.
- Supported Solution Architects in defining and documenting the Technical Architecture for new IT solutions, ensuring alignment between business needs and technical implementation.
- Reviewed third-party technical artefacts, providing constructive feedback to the Solution Architect to ensure adherence to project standards and requirements.
- Collaborated with Development and QA teams to provide necessary technical clarifications and support throughout the solution development and testing phases.
- Developed and documented best practices and procedures specifically for the Systems Analyst role, standardising workflows and improving team efficiency by **15%**.
- Contributed to project and resource planning, including budgeting and implementation phases, by providing technical insights and effort estimations.

SKILLS

Requirements Analysis – User Stories, Business Requirements, Technical Specifications, Stakeholder Interviews, Quality Criteria

Technical Documentation – Data Dictionaries, API Guides, Release Notes, Technical Architecture Documentation, Process Documentation

Development Support – Development Teams, QA Teams, Solution Architect, Technical Architect, Third-Party Artefacts

Databases & Data Design – Relational Data Design, MySQL, MariaDB, MS SQL, PostgreSQL

Data Formats – JSON, XML

Core Technologies – Java, Spring Boot, Python, SQL, AWS, Docker, Linux, Git, Jenkins

PROJECTS

Enterprise Systems Integration Analysis (HCL Technologies)

- Analysed and documented integration requirements between disparate enterprise systems, including ERP modules and operational platforms, using REST APIs and database-level data flows.
- Developed detailed interface specifications and data mapping documents for cross-system integrations, ensuring seamless data exchange between PostgreSQL and Oracle databases.
- Supported change-control management processes for system configuration updates, coordinating User Acceptance Testing (UAT) and providing post-go-live support for interconnected systems.

Financial Operations Dashboard Requirements (HCL Technologies)

- Gathered and translated business requirements for a financial-services operations dashboard, focusing on transaction monitoring and operational alerting for failed payments.
- Collaborated with operations teams and business analysts to define reconciliation workflows and produce clear documentation for transaction monitoring processes.
- Documented production environment requirements, including audit trails and GDPR-aware compliance measures, for a client-facing dashboard.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
