HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and built automated test frameworks for **web applications** and **REST APIs**, integrating **Python** and **pytest** to cover critical functional and regression scenarios.
- Developed and maintained automated test suites for **API and integration testing** using **Postman/Newman**, ensuring seamless data flow across platform components.
- Identified and converted over 150 manual test cases for automation, prioritizing based on risk and potential impact to core B2B SaaS platform functionality.
- Integrated automated test execution into **Azure DevOps CI/CD pipelines**, establishing quality gates that provided immediate feedback on every build.
- Monitored test suite health, systematically investigating and resolving flaky tests, reducing average execution times by **30%**.
- Collaborated with developers and product stakeholders to define acceptance criteria and ensure testability from the initial stages of feature development.
- Mentored junior team members on **automation best practices** and conducted knowledge-sharing sessions on effective test design and implementation.

SKILLS

Automation Tools – Playwright, Selenium, Cypress, Postman, Newman, JMeter, k6, Locust

Programming Languages – Python, Java, JavaScript, TypeScript

API Testing – REST Assured, pytest

CI/CD & DevOps – Azure DevOps, Jenkins, Git, Docker

Databases & Testing – SQL, PostgreSQL

Methodologies – Agile, Scrum, Risk-Based Testing, Exploratory Testing

PROJECTS

Automated Testing Framework for Enterprise SaaS Platform

- Engineered a comprehensive test automation framework using **Python** and **Playwright** to cover end-to-end scenarios for a B2B SaaS platform, targeting **web applications**.
- Developed reusable test modules and robust test data management strategies, enabling repeatable and reliable execution of over 500 automated test cases.
- Integrated the framework into the **CI/CD pipeline**, providing rapid quality feedback to development teams on each code commit.

API Test Automation Suite for Financial Services Integration

- Designed and implemented an **API testing** suite using **pytest** and **REST Assured** to validate critical integration points for a financial services client.
- Automated testing for key REST APIs, focusing on request/response validation, error handling, and performance under simulated load conditions.
- Collaborated with operations teams to ensure test environments accurately reflected production configurations, reducing post-deployment defects by approximately **20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
