HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented automated test suites for customer-facing web applications using **Java** and **Cucumber**, achieving **92%** code coverage for critical user flows.
- Collaborated with cross-functional Scrum teams to integrate automated tests into **Jenkins** CI/CD pipelines, increasing release velocity by **30%**.
- Developed and maintained **RESTful web services** using **Java Spring Boot**, ensuring adherence to coding standards and facilitating seamless integration with front-end applications.
- Contributed to the development of application features using **JavaScript** and **Angular**, focusing on creating maintainable and testable codebases.
- Participated in code reviews for both application and test code, providing constructive feedback to enhance software quality and promote bug prevention strategies.
- Developed and maintained **Java**-based automation harnesses with **Cucumber** for API testing, enabling comprehensive scenario and interoperability tests.
- Containerized test environments using **Docker**, ensuring consistency and portability across development and CI/CD stages.

SKILLS

Testing Frameworks – Cucumber, JUnit, Mockito, Selenium, SOATest

Languages – Java, JavaScript, Ruby, Python, SQL

Web Services – RESTful web services, HTTP, API Testing

Frontend Technologies – AngularJS (2+), Angular, JavaScript

CI/CD & Tools – Jenkins, Git, Jira, Confluence, Docker

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Automated Testing Framework for Enterprise Applications

- Engineered a reusable test automation framework using **Java** and **Cucumber** to support multiple enterprise applications, reducing manual testing effort by **45%**.
- Developed component and integration tests for **RESTful web services**, validating data integrity and response times against defined SLAs.
- Integrated the automation suite with **Jenkins** for nightly regression runs, providing timely defect reports to development teams.

Customer Transaction Workflow Simulation

- Built a simulation service in **Java Spring Boot** to mimic customer transaction flows, enabling realistic performance and scenario testing for a financial services operations dashboard.
- Implemented data validation and error handling logic to simulate various transaction outcomes, including successful processing and failure scenarios.
- Deployed the simulation service on **AWS EC2** instances, managing configurations and ensuring availability for the QA team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
