HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot microservices** for core platform features, focusing on RESTful API development and robust error handling.
- Developed and maintained **JPA entities and Hibernate mappings** for complex relational data models, ensuring efficient data persistence and retrieval across multiple services.
- Wrote **JUnit and Mockito tests** for Java components, achieving over 90% code coverage and ensuring the stability of new feature releases.
- Contributed to the design and development of **scalable applications and data workflows** supporting healthcare data exchange, integrating with AWS services.
- Participated in **code reviews and mentored junior engineers** on best practices for Java development and application design.
- Collaborated with product and data teams to define technical requirements for new features, translating business needs into actionable development tasks.
- Managed containerized applications using **Docker** and deployed them to **AWS EC2 instances**, configuring basic resource limits and networking.

SKILLS

Languages – Java, Python, JavaScript, SQL, R

Frameworks & Libraries – Spring Boot, JPA, Hibernate, JUnit, Mockito, pandas, NumPy, scikit-learn, React

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Git, Jenkins, Jira, Confluence, Splunk, Dynatrace, Spark, Snowflake

Methodologies – Agile, Scrum

PROJECTS

Healthcare Data Exchange Platform Enhancement

- Developed **Java Spring Boot microservices** to process and route healthcare data between disparate systems, adhering to strict data privacy protocols.
- Implemented **JPA and Hibernate** for managing patient record metadata and access control lists within a relational PostgreSQL database, supporting over 5,000 daily record lookups.
- Integrated new data validation rules into the existing **AWS Lambda**-based processing pipeline, reducing data ingestion errors by approximately **15%**.

Patient Data Access Workflow Automation

- Built **Python scripts** to automate the retrieval and aggregation of patient data from multiple sources for a compliance reporting workflow, handling approximately **2,800** data points per request.
- Designed and implemented a **REST API using Flask** to expose aggregated patient data securely to authorized downstream applications.
- Developed a **FastAPI interface** for model inference, serving predictions for patient risk stratification with a p95 latency under **200ms**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
