PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Collaborated with customer teams to understand technical challenges and business objectives, translating requirements into actionable solution designs for **enterprise infrastructure**.
- Prepared and delivered technical demonstrations and solution briefings for customers and partners on **modern data center** and **cloud platforms**.
- Built, configured, and tested prototypes and proof-of-concepts using **Dell technologies** and relevant partner cloud platforms to validate proposed architectures.
- Investigated technical issues during demonstrations and proof-of-concepts, identifying root causes and recommending clear next steps for resolution.
- Contributed to solution designs, ensuring alignment with customer needs for scalability, security, and supportability across various technology domains.
- Translated complex customer use cases into practical lab experiences and detailed **architecture diagrams** for validation and presentation.
- Developed **Python scripts** to automate data ingestion and processing for analytical dashboards, reducing manual effort by approximately **30%**.

SKILLS

Core Technologies – Compute, Storage, Networking, Virtualization, Operating Systems, Cloud Platforms, Cybersecurity, Data Platforms, AI Concepts.

Customer Engagement – Solution Architecture, Technical Demonstrations, Workshops, Solution Briefings, Proof-of-Concepts, Lab Sessions.

Programming & Scripting – Python, PowerShell, Bash, APIs, Git.

Infrastructure & Cloud – Dell Technologies, Multicloud, Automation, Modern Data Center Infrastructure, Infrastructure as Code.

Data & AI – Data Analytics, Machine Learning Workflows, Artificial Intelligence.

PROJECTS

Enterprise Automation Platform Development

- Developed a **Python**-based automation platform to streamline IT operations, reducing manual task execution time by **45%** for routine system checks.
- Designed and implemented RESTful APIs using **FastAPI** for integration with existing enterprise systems, enabling seamless data exchange across platforms.
- Containerized platform services using **Docker** and deployed them to a Kubernetes cluster, enhancing deployment consistency and scalability.

Customer Solution Configuration Lab

- Built and configured demonstration environments for new customer solutions, integrating **Dell infrastructure** with various **cloud platforms**.
- Created detailed **architecture diagrams** and configuration documentation for proof-of-concept deployments, facilitating customer understanding and technical validation.
- Scripted environment setup and teardown processes using **Bash**, improving lab resource management efficiency by approximately **20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
