PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed a portfolio of **150+ On Trade outlets**, developing and executing simple growth actions to increase distribution and rate of sale for priority brands, resulting in a **12% uplift** in new product placements.
- Translated channel and brand priorities into **outlet-level execution plans** for promotions and new product launches, coordinating with Customer Marketing and external partners to ensure brilliant execution and track outcomes.
- Maintained accurate **EDGE/CRM records** and coordinated forecast inputs with Commercial teams, utilizing rate-of-sale and customer performance data to prioritize actions and identify risks early.
- Resolved customer issues related to supply, delivery, quality, and pricing by working cross-functionally with Sales, Supply Chain, and Finance teams, ensuring adherence to responsible-retailing standards.
- Built trusted customer relationships through regular business reviews and consistent follow-through on commitments, fostering collaboration and mutual understanding with key On Trade partners.
- Analyzed **performance data and CRM insights** to identify white-space opportunities and drive rate-of-sale improvements across a defined portfolio of beer and spirits brands.
- Supported enterprise business systems integrations via REST APIs and database-level data flows across **PostgreSQL and Oracle**, contributing to change-control management for system configuration updates.

Operations & Compliance – Supply Chain Coordination, Quality Assurance, Pricing Management, Claims Resolution, Responsible Retailing, GDPR Compliance

Collaboration & Communication – Cross-functional Collaboration, Influencing, Negotiation, Stakeholder Management, Problem Solving

PROJECTS

On Trade Customer Portfolio Growth Initiative

- Developed and implemented a targeted strategy to grow distribution and menu placement for 5 priority brands across a portfolio of **75 On Trade outlets**.
- Conducted detailed analysis of outlet performance data and customer feedback to identify specific opportunities for increasing rate of sale, leading to a **9% average increase** in brand velocity.
- Collaborated with Customer Marketing to land 3 major brand activations and 2 new product launches, ensuring consistent execution and tracking of standards and outcomes.

Financial Operations Dashboard Enhancement

- Contributed to the enhancement of a payments operations dashboard for a financial-services client by developing **Python scripts for data validation** and anomaly detection in transaction flows.
- Assisted in production support and monitoring of enterprise Java applications using **Splunk and Dynatrace**, responding to P1/P2 incidents and managing SLAs within a regulated environment.
- Performed ad-hoc SQL queries against **PostgreSQL and MySQL databases** to support data validation and reporting for operational alerting on failed payment messages.
