HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python**-based data pipelines for ETL processes, processing approximately **500,000 records** daily to support internal analytics.
- Developed and maintained **Java Spring Boot** REST APIs for internal services, handling cross-service data exchange and request validation.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring SLA adherence for a team of 8 engineers.
- Built and maintained front-end components using **TypeScript** and **React**, focusing on intuitive UX and integration with backend services for millions of users.
- Collaborated with engineering, growth, and sales teams to design and implement end-to-end features, translating complex user requirements into actionable development tasks.
- Scoped and developed a brand new proof-of-concept product for a partner customer, demonstrating potential for new market capture through innovative AI voice model integration.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits for predictable performance during fleet updates.

SKILLS

Languages – Python, Java, TypeScript, SQL, R

Frameworks & Libraries – Spring Boot, React, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile, Scrum, CI/CD, REST APIs

PROJECTS

AI Voice Agent Integration Platform

- Developed a **Python**-based backend service using **FastAPI** to integrate ElevenLabs' AI voice models with enterprise customer communication platforms.
- Designed and implemented REST APIs for seamless data flow between the AI model inference endpoints and customer-facing chat applications, processing an average of **1,500 requests** per hour.
- Collaborated with a partner customer's technical team to define integration points and conduct initial testing, ensuring smooth adoption of the new agent capabilities.

Customer Experience Enhancement Tool

- Built a **TypeScript** and **React** front-end application to provide a user-friendly interface for managing and deploying AI-powered voice agents.
- Integrated interactive dashboard elements displaying agent performance metrics, including average call duration and resolution rates, to aid in user decision-making.
- Worked with customer success managers to gather feedback on the tool's usability and iterate on UX improvements, aiming to reduce onboarding time by **20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
