PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and resolved approximately **30-40 support tickets daily**, focusing on first-line technical issues for internal staff across various departments.
- Installed, configured, and troubleshot **Microsoft Operating Systems** and standard **Microsoft Applications**, ensuring seamless operation for end-users.
- Performed routine **system security checks**, including antivirus scans and malware removal, and assisted with data **backups**, maintaining system integrity.
- Diagnosed and resolved issues related to **IT hardware** (laptops, desktops, peripherals) and software, escalating complex problems to senior technical staff when necessary.
- Maintained accurate records of **hardware and software inventories**, user access permissions, and security configurations within the IT asset management system.
- Provided ad-hoc **technical training** to end-users on common software functionalities and IT best practices, improving user self-sufficiency.
- Collaborated with other technical teams to ensure effective **system connectivity** and compatibility, contributing to overall IT infrastructure stability.

SKILLS

Operating Systems – Microsoft Windows, Linux

Applications – Microsoft Office Suite, Antivirus Software, Malware Protection

Troubleshooting – First Line Support, Hardware Diagnosis, Software Installation, System Connectivity

IT Management – Ticket Management, SLA Adherence, Inventory Management, User Access Control, Security Checks, Backups

Core Technologies – Active Directory, IT Hardware, IT Software

PROJECTS

Internal IT Support Enhancement Initiative

- Developed a streamlined process for handling and prioritizing first-line support tickets, reducing average resolution time by **15%** for common issues.
- Documented common troubleshooting steps for **Microsoft Operating Systems** and applications, creating a knowledge base that reduced repeat incidents by **~20%**.
- Assisted in the deployment of new hardware across the user base, including setup, configuration, and user-specific software installations.

User Access and Security Audit Tool

- Built a Python script to automate the auditing of user access permissions against defined security policies, identifying **5-10 potential policy violations** per audit cycle.
- Integrated the script with basic logging to maintain a record of checks and flag discrepancies for review by the security team.
- Researched and implemented best practices for secure data handling and storage relevant to IT support operations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
