PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided remote and onsite technical support, diagnosing and resolving hardware, software, and network issues for enterprise customers across Windows and Microsoft 365 environments.
- Installed, configured, and maintained servers, virtual environments (VMware, Hyper-V), and networking equipment, ensuring secure and reliable IT operations for client infrastructure.
- Supported backup, disaster recovery, and business continuity solutions, performing proactive maintenance and implementing system improvements to minimize downtime.
- Managed infrastructure upgrades and migrations for client environments, coordinating with internal teams and external vendors to ensure successful project delivery.
- Applied security best practices, including patch management, access controls, and MFA implementation, to safeguard customer systems against evolving threats.
- Developed Python scripts to automate routine maintenance tasks and data reporting, reducing manual effort by an estimated **30%** for the support team.
- Documented technical configurations and customer-specific solutions in a central knowledge base, improving onboarding efficiency for new support engineers.

SKILLS

Operating Systems – Windows Server, Windows Desktop, Linux

Cloud & Virtualisation – Microsoft Azure, VMware, Hyper-V, AWS

Networking – TCP/IP, VLANs, Routing, Firewalls, VPNs, DNS, DHCP

Microsoft 365 – Exchange Online, Active Directory, Intune

Automation & Scripting – PowerShell, Python

Support & Infrastructure – IT Support, Infrastructure Projects, Backup & Recovery, Disaster Recovery, Business Continuity, Cybersecurity, Vulnerability Management, Incident Response

PROJECTS

Customer Infrastructure Deployment & Support

- Deployed and configured new server infrastructure, including Active Directory domain services and DNS, for a financial services client's regional office.
- Managed the rollout of Microsoft 365 services, including Exchange Online and SharePoint, to over 150 end-users, providing initial setup and troubleshooting.
- Implemented network segmentation using VLANs and configured firewall rules to enhance security posture and isolate critical systems.

Automated System Monitoring & Alerting

- Developed Python scripts to parse system logs from Dynatrace and Splunk, identifying critical errors and generating automated alerts for P1/P2 incidents.
- Integrated monitoring scripts with a ticketing system to automatically create incident tickets, reducing response time by approximately **20%**.
- Configured scheduled reporting jobs to provide weekly summaries of system health and performance metrics to operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
