PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Partnered with Commercial Technology product owners and business stakeholders to support **contracts and pricing systems**, translating business needs into system capabilities and validating solutions.
- Analyzed business processes for contract creation, approval, and maintenance, identifying opportunities for system and process improvements across **EMEA commercial platforms**.
- Led the application of **automation** to modernize commercial platforms, enhancing customer engagement and driving scalable commercial execution across sales operations.
- Supported system testing activities, including **UAT coordination** and defect triage, ensuring reliable fixes prior to production deployment.
- Collaborated with IT partners to ensure **data integrity and system integrations** across connected commercial platforms, maintaining operational stability.
- Provided operational support, issue analysis, and root-cause investigation for **contracts system incidents** and user inquiries, impacting ~500 users.
- Developed and maintained **process documentation** and job aids that supported end-user adoption and compliance for new system features.

SKILLS

Core Competencies – Business Systems Analysis, Requirements Documentation, UAT Support, Data Analysis, Stakeholder Communication, Problem Solving, Process Improvement, Agile Product Development, Product Development, Product Strategies, Requirements Analysis, Software Development Life Cycle

Contracts & Commercial Platforms – Contract Lifecycle Management (CLM) concepts, Commercial Processes, Pricing Systems, Revenue Recognition, Customer Operations

Data & Analytics Tools – SQL, Reporting Tools, System Queries

Methodologies – Agile, Product-Based Delivery Models, Backlog Management

Environments & Compliance – Regulated Environments, Audit, Compliance Considerations

PROJECTS

Commercial Contracts System Modernization

- Analyzed and documented existing workflows for contract creation and approval for a **European commercial division**, identifying bottlenecks in the user journey.
- Designed functional specifications and user stories for enhancing an internal **contracts platform**, focusing on improved data validation and automated approval routing.
- Collaborated with business stakeholders to validate proposed system changes, ensuring alignment with **regulatory and compliance standards** for contract execution.

Automated Reporting for Sales Operations

- Developed Python scripts to automate the generation of weekly sales performance reports, consolidating data from multiple **CRM and ERP systems**.
- Implemented data validation checks within the Python scripts to ensure accuracy of key metrics such as **revenue figures and contract renewal rates**, reducing manual correction time by 30%.
- Created dashboard visualizations in **Power BI** to present the automated report data to sales leadership, facilitating quicker data-driven decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
