PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and enforced improved **Health and Safety practices, policies, and procedures** on-site, directly contributing to a 15% reduction in reported minor incidents.
- Facilitated **Site Safety meetings**, updating business unit managers on developments and ensuring all personnel received required **safety training**, achieving 100% completion for mandatory modules.
- Assisted business unit managers in conducting comprehensive **Risk Assessments** for all site operations, leading to the identification and mitigation of 3 key operational hazards.
- Implemented **internal audit processes** at site level, measuring performance against Group policy and developing action plans that improved compliance scores by 10% quarter-over-quarter.
- Coordinated with the **Site Manager and Health and Safety Manager** to develop and budget effective **training policies**, ensuring alignment with regulatory requirements and operational needs.
- Undertook regular unscheduled **Safety audits** on-site to ensure compliance with Group policy, identifying and reporting breaches that led to prompt corrective actions.
- Containerized **Java Spring Boot** applications using **Docker** and deployed them to **AWS EC2** instances via **Jenkins** pipelines, ensuring consistent environments for production support.

SKILLS

Health & Safety Management – H&S; Management Systems, Policies and Procedures, Risk Assessment, Internal Audits, Safety Training, Incident Reporting, Compliance, Regulatory Liaison, Site Safety Meetings

Software Engineering – Java, Spring Boot, REST APIs, SQL, PostgreSQL, Python, Docker, AWS (EC2, S3, Lambda, CloudWatch), Linux, Git, Jenkins

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, Data Warehousing, Statistical Analysis

Project Management & Operations – Agile Methodologies, Scrum Ceremonies, Jira, Confluence, Change Management, Production Support, SLA Management, Incident Response

Business Tools – Microsoft Office Suite, Excel, PowerPoint

PROJECTS

Health and Safety Compliance Dashboard (HCL Technologies)

- Developed a **Power BI dashboard** to visualize compliance metrics and audit findings for a financial services operations environment, enabling real-time monitoring of key safety indicators.
- Integrated data from multiple sources using **Power Query** to create a unified view of safety incidents and audit results, reducing manual data aggregation time by approximately **30%**.
- Modeled data relationships within Power BI to support drill-down capabilities, allowing stakeholders to analyze trends and identify areas for targeted safety improvements.

Automated Incident Reporting System (HCL Technologies)

- Engineered a **Python scripting** solution to automate the generation of daily operational reports, consolidating data from production logs and databases.
- Developed **SQL queries** against PostgreSQL to extract relevant transaction data for incident analysis, improving the accuracy of root cause identification for P1/P2 issues.
- Containerized the reporting script using **Docker** for consistent execution across development and production environments, streamlining the deployment process.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
