PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Analyzed financial statements and performance metrics for a portfolio of **165 investments** across technology, healthcare, and industrials sectors to identify trends and assess company health.
- Developed financial models and applied valuation methodologies to support strategic optimization efforts for credit investments, contributing to portfolio value creation.
- Assessed and mitigated risks across a diverse set of investments by conducting in-depth evaluations of corporate structures and financial health.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements for enhancing portfolio monitoring tools and processes.
- Supported the integration of enterprise business systems and ERP modules, ensuring data consistency and operational efficiency across interconnected platforms.
- Managed change control processes for system configurations, coordinating User Acceptance Testing (UAT) and providing post-go-live support for critical business applications.
- Containerized Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing manual setup time.

SKILLS

Financial Analysis – Financial Statement Analysis, Performance Analytics, Valuation Methodologies, Transaction Modelling, Risk Management, Corporate Finance, Commercial Awareness

Technical Skills – Java, Spring Boot, REST APIs, SQL, PostgreSQL, MySQL, Oracle, Python, Docker, AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git, Linux

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Exploratory Data Analysis, Statistical Analysis

Project Management – Agile/Scrum Methodologies, Jira, Confluence, Change Management, UAT Coordination, Production Support, Incident Response

Domain Knowledge – Credit Investments, Private Equity, Corporate Lending, Financial Services Operations, Transaction Monitoring, Reconciliation Workflows

PROJECTS

Portfolio Performance Analytics Dashboard

- Developed a **Power BI** dashboard to visualize key performance indicators (KPIs) for a portfolio of enterprise investments, enabling stakeholders to track financial health and trends.
- Engineered data pipelines using **Python** and **SQL** to extract, transform, and load financial data from multiple sources into a centralized data warehouse for reporting.
- Designed and implemented **DAX** measures and complex data models within Power BI to support in-depth financial analysis and strategic decision-making for credit portfolios.

Automated Financial Reporting System

- Built an automated reporting system using **Java Spring Boot** and **PostgreSQL** to generate weekly financial summaries for internal business operations.
- Developed **REST APIs** to facilitate data exchange between the reporting system and other enterprise applications, ensuring seamless integration.
- Implemented scheduled tasks and error handling mechanisms using **Jenkins** and **Linux** cron jobs to ensure reliable and timely report generation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
