PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the performance monitoring of **200+ ABF transactions** across public and private markets, engaging regularly with servicers and originators to gather critical data.
- Prepared **quarterly portfolio reviews** and presented findings to **Investment Committee**, synthesising complex financial data into actionable insights.
- Developed intricate **financial models**, conducting robust **scenario and sensitivity analyses** to assess potential investment outcomes.
- Maintained and updated performance data and **risk metrics** within KKR's internal portfolio management systems, ensuring data integrity and accessibility.
- Collaborated cross-functionally with **Investor Relations, Risk, and ESG teams** to support reporting, investor materials, and ad hoc portfolio requests.
- Coordinated with **third-party valuation agents** to accurately support the valuation of private transactions, ensuring alignment with market standards.
- Identified underperforming assets and supported trade or repositioning recommendations by analysing **transaction performance** and market data.

SKILLS

Finance & Analysis – Portfolio Monitoring, Financial Modelling, Scenario Analysis, Sensitivity Analysis, Risk Metrics, Valuation, Structured Finance, Credit Risk, Investment Analysis

Tools & Platforms – Excel, Bloomberg, Tableau, PowerBI, FactSet, Intex

Data Management – Performance Data Maintenance, Data Integrity, Data Analysis

Collaboration & Communication – Cross-functional Collaboration, Investor Relations, Investment Committee Presentations, Stakeholder Engagement, Written Communication, Presentation Skills

Core Competencies – Quantitative Analysis, Analytical Skills, Attention to Detail, Problem-Solving, Self-Starter Mindset, Adaptability

PROJECTS

ABF Portfolio Performance Analytics Platform

- Developed a suite of analytical tools in **Python** to aggregate and analyse performance data for over **150 ABF transactions**, identifying key trends and risk factors.
- Built interactive **Power BI dashboards** to visualise portfolio performance, risk metrics, and transaction-level details for senior management and investment committees.
- Automated the ingestion and validation of financial data from multiple sources using **SQL** and **pandas**, reducing manual data handling by an estimated **40%**.

Structured Credit Deal Structuring & Risk Assessment

- Constructed detailed **cash flow models** in Excel to evaluate the financial viability and risk profile of complex structured credit transactions.
- Performed **scenario and sensitivity analyses** on key deal parameters to understand potential impacts on returns and capital requirements.
- Documented deal structures, collateral types, and associated risk factors, contributing to a comprehensive understanding of the portfolio's risk exposure.
