PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed financial statements and performance metrics for **165 portfolio investments** across diverse industries, identifying key trends and deviations from projections.
- Developed and maintained **financial models** for asset valuation and transaction analysis, ensuring accuracy and supporting strategic investment decisions for a **$1.5B+** portfolio.
- Contributed to **portfolio risk management** by identifying and assessing potential risks across investments, collaborating with senior analysts to propose mitigation strategies.
- Supported the development of **performance analytics** for credit investments, translating raw financial data into actionable insights for internal stakeholders.
- Managed **change control processes** for system configurations and updates related to enterprise business systems, coordinating UAT and post-go-live support.
- Wrote **Python scripts** to automate data extraction and transformation tasks for financial reporting, reducing manual processing time by an estimated **20%**.
- Participated in **Agile/Scrum ceremonies**, including sprint planning and daily stand-ups, contributing to the timely delivery of project milestones.

SKILLS

Finance & Analysis – Financial Statement Analysis, Performance Analytics, Asset Valuation, Financial Modelling, Portfolio Management, Risk Management, Corporate Finance, Transaction Services, Restructuring, Corporate Audit.

Programming & Scripting – Python, SQL, Java, Spring Boot.

Databases & Data Handling – PostgreSQL, MySQL, Oracle, Data Warehousing, ETL, Data Modelling.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker.

Development Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile, Scrum.

Business Intelligence – Power BI, Tableau, DAX, Power Query.

PROJECTS

Portfolio Performance Analytics Dashboard

- Designed and implemented a **Power BI dashboard** to visualize key performance indicators for a portfolio of 50+ enterprise investments, enabling faster trend identification.
- Developed **DAX measures** and complex data models to aggregate financial data from multiple sources, providing a unified view of portfolio health.
- Collaborated with business analysts to gather requirements and refine visualizations, ensuring the dashboard met the analytical needs of the investment team.

Automated Financial Data Extraction Tool

- Engineered a **Python script** to automate the extraction of financial data from disparate client reports and internal systems, processing approximately **5,000 records** per batch.
- Developed reusable **SQL queries** to validate extracted data against source systems and populate a central data repository, improving data integrity.
- Integrated the script into a scheduled Jenkins job for regular execution, reducing manual data handling by an estimated **30%** for the reporting cycle.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
