PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Performed on-site installation, maintenance, and repair of complex electro-mechanical and electronic semiconductor equipment at customer facilities.
- Conducted analytical problem-solving and diagnostics to isolate component-level issues, implementing corrective actions that minimized system downtime for enterprise customers.
- Interpreted electrical and mechanical schematics, diagrams, and operation manuals to guide troubleshooting and repair procedures for advanced systems.
- Developed customer response action plans, transparently communicating technical challenges and opportunities to build trust and enhance satisfaction.
- Provided technical instruction and mentorship to junior engineers, fostering a collaborative learning environment for complex equipment support.
- Managed field modifications and updates, coordinating activities between internal teams and the customer while maintaining detailed records and reports.
- Maintained operational excellence for customer-installed base performance, ensuring high quality of service and lifecycle solutions for critical equipment.

SKILLS

Field Service – On-site repair, Maintenance, Installation, Troubleshooting, System diagnostics, Electro-mechanical systems, Electronic systems

Technical Skills – Schematic interpretation, Electrical schematics, Mechanical schematics, Operation manuals, Problem-solving, Root Cause Analysis

Customer Support – Customer satisfaction, Technical instruction, Mentoring, Field modifications, Customer collaboration, Response planning

Core Technologies – Semiconductor capital equipment, Lam products, Cleanroom environment, Personal Protective Equipment (PPE)

General Skills – Microsoft Office Suite, Written communication, Verbal communication, English

PROJECTS

Semiconductor Equipment Installation and Diagnostics (HCL Technologies)

- Executed on-site installations of complex semiconductor manufacturing equipment, including initial start-up and system validation procedures.
- Performed detailed diagnostics on electro-mechanical systems, isolating faults to the component level and executing repairs to restore full operational status.
- Documented all installation and repair activities, providing clear technical reports for both internal engineering teams and customer stakeholders.

Customer Technical Support and Mentorship Program (HCL Technologies)

- Acted as a primary technical contact for enterprise clients, troubleshooting issues and developing effective response plans to minimize equipment downtime.
- Mentored and guided junior field technicians on complex repair procedures and system diagnostics, enhancing overall team technical proficiency.
- Collaborated with customer operations teams to gather feedback on equipment performance and identify areas for service improvement.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
