HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Automated the deployment and configuration of infrastructure on **AWS** using **Terraform** and **Bash** scripting, reducing manual setup time by **40%**.
- Designed and implemented CI/CD pipelines using **Jenkins** and **Git**, enabling automated builds, testing, and deployments for multiple Java applications.
- Managed and monitored production environments on **Linux** and **AWS EC2** instances, focusing on application stability and incident response using **Splunk** and **Dynatrace**.
- Developed and maintained automation scripts in **Python** and **Bash** to streamline repetitive operational tasks and data processing workflows.
- Contributed to the design and implementation of microservices using **Java Spring Boot**, focusing on REST API development and integration.
- Containerized applications using **Docker**, ensuring consistent deployment across development, testing, and production environments.
- Collaborated with cross-functional teams in a **multi-site** development environment to integrate software components and resolve technical challenges.

SKILLS

DevOps & CI/CD – Jenkins, Git, Bitbucket, Artifactory, SonarQube, Klocwork, Gradle, Maven, CI/CD, SCM

Cloud Platforms – AWS, GCP, Azure, EC2, S3, Lambda, CloudWatch

Containerization – Docker

Infrastructure as Code – JCasc, Terraform

Scripting Languages – Bash, Perl, Python, Groovy

Programming Languages – Java, Groovy

Databases – MySQL

PROJECTS

Automated CI/CD for Enterprise Applications

- Developed a comprehensive CI/CD pipeline using **Jenkins** and **Git**, integrating **SonarQube** for code quality checks and **Artifactory** for artifact management.
- Implemented automated deployment scripts in **Bash** and **Python** to deploy Java applications to **AWS EC2** instances, reducing manual deployment time by **35%**.
- Containerized the applications using **Docker**, ensuring consistent environments and simplifying deployment processes across different stages.

Infrastructure Automation with Terraform and AWS

- Designed and provisioned cloud infrastructure on **AWS** using **Terraform**, managing resources like **EC2**, **S3**, and **VPC** configurations.
- Authored **Bash** scripts to automate the configuration of new instances and application setup post-provisioning, improving initial deployment speed.
- Integrated infrastructure deployment with CI/CD pipelines for repeatable and reliable infrastructure management.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
