PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed product specifications and designed comprehensive test cases to ensure alignment with requirements for telecommunications software.
- Prepared and configured test environments, including necessary hardware and software setups, for effective manual test case execution.
- Executed detailed manual and regression test cases, meticulously analyzing results and documenting all detected issues and defects in Jira.
- Investigated reported defects, performed root cause analysis to identify underlying issues, and collaborated with development teams for resolution.
- Provided technical documentation and training materials on testing processes and defect management to internal teams and business functions.
- Collaborated closely with test managers and cross-functional team members to ensure cohesive quality assurance efforts and timely delivery.
- Managed production support for enterprise Java applications, responding to P1/P2 incidents and maintaining SLAs using Splunk and Dynatrace.

SKILLS

Testing Methodologies – Manual Testing, Regression Testing, Test Case Execution, Root Cause Analysis, Quality Assurance

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, Jenkins, Git, Linux, AWS (EC2, S3, Lambda, CloudWatch)

Programming Languages – Java, Spring Boot, Python, SQL

Databases – PostgreSQL, MySQL, Oracle

Domain Knowledge – Telecommunications Hardware, IT Networking Products, Software Development Quality Assurance

Education & Certifications – MSc Data Analytics, BE Computer Science, Certificate/Diploma Computer Science

PROJECTS

Enterprise Application Quality Assurance Framework

- Developed a structured test execution plan for a critical enterprise Java application, covering functional and non-functional requirements.
- Authored detailed test cases and validation scripts, identifying over **150 defects** prior to production release across multiple sprints.
- Integrated testing workflows with **Jenkins** CI/CD pipelines to automate test execution and reporting, reducing manual effort by **30%**.

Automated Test Environment Setup & Validation

- Configured and maintained testing environments on **AWS EC2** instances, ensuring consistent configurations for repeatable test runs.
- Scripted environment setup procedures using **Python** and shell scripts, enabling rapid deployment and validation for new test cycles.
- Documented environment setup guides and troubleshooting steps for junior QA analysts, facilitating faster onboarding and issue resolution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
