PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided first-level triage for inbound IT incidents, gathering essential details and documenting them within the **ticketing system** to facilitate efficient resolution for **SuperValu & Centra retailers**.
- Managed daily IT ticket queues, ensuring timely and quality resolution of issues impacting **retailer-facing hardware** such as **ePOS systems**, PCs, and printers, adhering to service level agreements.
- Collaborated with internal teams and third-party service providers to manage and resolve IT incidents, ensuring satisfaction for both **internal and external Musgrave customers**.
- Optimized operational processes and procedures for IT systems support, focusing on maximum efficiency and maintaining high-quality standards for **continual service improvement**.
- Identified and researched technical problems, escalating and resolving them in coordination with development teams to improve **IT systems performance & reliability**.
- Contributed to delivering services into production, including system upgrades and decommissioning activities, by participating in team **sprint planning and technical estimation**.
- Developed and shared knowledge articles on common fixes and troubleshooting steps, enhancing the team's ability to manage **essential IT operations** and reduce recurring issues.

SKILLS

IT Support & Operations – IT Systems Support, Business Process Support, Incident Management, Ticket Management, Root Cause Analysis, Change Management, Production Support, SLA Management, Production Monitoring, Escalation Procedures, Knowledge Sharing, Customer Support, Retail Applications, Retail Hardware Support, ePOS Systems, Network Equipment, Desktop Support, Application Support

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Shell Scripting, Cron Jobs, Docker

Development & Scripting – Java, Spring Boot, REST APIs, Python, SQL (PostgreSQL, MySQL, Oracle), Git, Jenkins

Data & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Splunk, Dynatrace

Project Management & Collaboration – Agile Methodologies, Scrum Ceremonies, Jira, Confluence, Cross-functional Collaboration, Stakeholder Communication, Requirements Gathering, UAT Support

PROJECTS

Retail Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** for a financial-services client by building new Python scripts to automate data ingestion and reporting, reducing manual effort by approximately 15 hours per week.
- Implemented real-time monitoring alerts using **Splunk** for critical transaction flows on the dashboard, decreasing the average time to detect failed payment messages from 45 minutes to under 10 minutes.
- Supported production environments with strict SLAs and audit trails, performing **SQL** queries for data validation and troubleshooting issues across **PostgreSQL** and Oracle databases.

Automated ERP Data Reconciliation Tool

- Developed a **Python**-based tool to automate reconciliation workflows between ERP modules and operational platforms, processing approximately 5,000 records daily.
- Integrated the tool with **REST APIs** and database connections to extract and compare data across disparate systems, identifying discrepancies that previously required manual review.
- Contributed to change-control management for system configuration updates, coordinating UAT and providing post-go-live support for the automated reconciliation process.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
