HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Python** scripts to automate ETL processes for financial data ingestion, reducing manual processing time by **40%**.
- Managed production incidents for enterprise Java/.NET applications, performing root cause analysis and implementing fixes within strict **SLA** targets.
- Designed and implemented **Java Spring Boot** REST APIs to facilitate cross-system integrations, supporting data flows between operational platforms.
- Containerised microservices using **Docker** and deployed them to **AWS ECS Fargate** environments, enhancing deployment consistency and scalability.
- Implemented **Terraform** modules to provision and manage AWS infrastructure, ensuring consistent and repeatable resource deployment across development and production.
- Collaborated with product engineers to define and implement **GitOps** workflows, streamlining deployment pipelines and improving code review efficiency.
- Conducted performance investigations on **Aurora MySQL** and **PostgreSQL** databases, identifying and resolving bottlenecks that improved query execution times by an average of **30%**.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch, ECS Fargate, Aurora MySQL, SQS, EventBridge), Docker

Infrastructure as Code – Terraform

Languages – Python, Java, SQL, PHP

Frameworks & Libraries – Spring Boot, Laravel, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Redis

Observability & Monitoring – Honeycomb, OpenTelemetry, Splunk, Dynatrace, Grafana

DevOps & SRE Tools – Jenkins, Git, Jira, Confluence, GitOps, PagerDuty, Incident.io

PROJECTS

Automated Deployment Pipeline for Microservices

- Engineered a CI/CD pipeline using **Jenkins** and **Git** to automate the build, test, and deployment of microservices to **AWS ECS Fargate**.
- Integrated **Docker** into the pipeline for consistent containerization, reducing environment configuration issues by **60%**.
- Developed shell scripts for automated infrastructure provisioning with **Terraform**, ensuring reproducible environments for testing and production.

Performance Tuning for Transaction Processing Systems

- Analyzed and optimized **PostgreSQL** database queries and indexing strategies for a high-throughput transaction processing system, improving p95 latency by **28%**.
- Implemented asynchronous processing using **AWS SQS** to decouple services and handle fluctuating load, increasing system resilience.
- Developed monitoring dashboards in **Honeycomb** to track key performance indicators and error rates, enabling proactive issue detection.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
