PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed trade capture and ticket completeness for OTC and non-OTC trades including Bond trades, FX, Derivatives Repos, and Swaps, directly supporting Portfolio Managers.
- Acted as the primary escalation contact for trade settlement queries, liaising daily with outsourced Back Office support (State Street) and directly with Brokers to resolve issues.
- Executed initial trade confirmations with brokers for trades executed in the London office, ensuring accuracy and adherence to settlement procedures.
- Developed Python scripts to automate the generation of daily trade-flow reports and ad-hoc reports requested by the Portfolio Management team, reducing manual reporting time by approximately **40%**.
- Collaborated with Portfolio Managers, Compliance, and Investment Operations teams to ensure accurate trade processing and adherence to firm policies.
- Designed and implemented REST APIs using **Java Spring Boot** to integrate with enterprise business systems, facilitating cross-system data flows and improving data consistency across interconnected platforms.
- Containerized Java Spring Boot applications using **Docker** for consistent deployment across development and production environments on **AWS EC2**.

SKILLS

Trade Processing – OTC trades, Non-OTC trades, Bond trades, FX, Derivatives Repos, Swaps, Trade Capture, Ticket Completeness, Trade Confirmation, Settlement Queries

Financial Operations – Middle Office, Portfolio Management Support, Investment Operations, Compliance

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Linux Shell Scripting, Splunk, Dynatrace

PROJECTS

Payments Operations Dashboard Enhancement

- Developed **Java Spring Boot** microservices to process and monitor inbound transaction messages for a payments operations dashboard, improving real-time visibility into payment flows.
- Implemented automated alerting mechanisms using **Python** and **SQL** for failed or stalled payment messages, reducing manual triage effort by approximately **30%** for the operations team.
- Collaborated with business analysts to gather requirements for new dashboard features, translating them into technical specifications and delivering enhancements within Agile sprints.

Enterprise ERP System Integration

- Designed and implemented RESTful APIs in **Java Spring Boot** to facilitate data exchange between the core ERP system and subsidiary operational platforms, ensuring data consistency across systems.
- Wrote complex **SQL** queries for data validation and migration tasks during system updates, ensuring data integrity and supporting change-control management for system configurations.
- Provided post-go-live support for integrated systems, troubleshooting and resolving data flow issues across PostgreSQL and Oracle databases.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
