HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Operated and maintained highly available **Azure** and hybrid cloud network services, ensuring stability for critical business platforms.
- Designed and supported **Azure hub-and-spoke architectures**, including virtual networks, peering, user-defined routes, and NAT Gateway configurations.
- Managed network security controls such as **Network Security Groups** and **Azure Firewall** to enforce controlled ingress and egress traffic.
- Supported hybrid connectivity using **ExpressRoute** and site-to-site VPNs, integrating with on-premises routing platforms and security protocols.
- Monitored network health and performance using **Azure Monitor** and **Network Watcher**, analyzing flow logs and platform telemetry to identify latency and availability issues.
- Troubleshot complex end-to-end connectivity and performance problems across cloud and hybrid environments, diagnosing issues related to DNS, routing, and firewalls.
- Developed and maintained **Terraform** scripts for repeatable network infrastructure deployments, adhering to peer review and controlled change management practices.

SKILLS

Cloud Platform – Microsoft Azure, Azure Monitor, Network Watcher, Azure Firewall, Network Security Groups, Private Link, Private Endpoints, Service Endpoints, NAT Gateway, Azure DNS, Private DNS, Azure Load Balancer, Application Gateway, Front Door, ExpressRoute, VPN Gateway, Azure Virtual WAN

Infrastructure as Code – Terraform

Networking Protocols – TCP/IP, IPv4, DNS, DHCP, BGP, VPNs, TLS, HTTP/S

Scripting & Automation – PowerShell, Azure CLI, Bash, Python

Operating Systems – Linux

DevOps Tools – Git, Jenkins, Docker

PROJECTS

Azure Network Infrastructure Automation

- Developed **Terraform** modules to automate the deployment of Azure Virtual Networks, subnets, and Network Security Groups, reducing manual configuration time by **~60%**.
- Implemented **Private Link** and Private Endpoints to establish secure, private connectivity to Azure PaaS services, enhancing the security posture for sensitive data flows.
- Wrote Python scripts to parse and validate Terraform plan outputs, ensuring adherence to predefined network standards before deployment to production environments.

Hybrid Cloud Connectivity and Monitoring

- Configured and managed **ExpressRoute** circuits to provide dedicated, high-bandwidth connectivity between on-premises data centers and Azure, supporting critical enterprise applications.
- Integrated **Azure Monitor** and custom log collection from on-premises network devices to provide a unified view of network health and performance across hybrid environments.
- Authored detailed operational runbooks for hybrid network troubleshooting, including common failure scenarios for VPNs and BGP routing.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
